INTRODUCTION

Master Power Systems Limited (MPSL), a member of **Master Power Group of Companies**, is accredited with **ISO 9001:2015** and **ISO 14001:2015** for Quality, **ISO 45001:2018** for Health and Safety, as **MEP Contractor** in the region.

The Group was pioneered by **Mr. Mukesh N. Hirani**, a Kenyan Citizen and first-generation entrepreneur, who established the Group by commencing with Electrical Contracting in 2001.

The Group now transforming into full-fledged, completely integrated **MEP** (Mechanical, Electrical and Plumbing) solution. He had envisioned this transformation of **MEP** services which is getting globally migrated to Technological Based Solution, hence has diversified **MPSL** in to an Integrated **MEP** Combined Services Company which brings the following added advantages to our esteemed customers:

- **Energy Efficient and Single Enterprise Solution**
- **Higher Performance on customized Solutions / Equipment Selection**
- **Optimization of MEP Services Coordinated Layout**
- **Economized or Lowered Project Management Cost**
- **Centralized Technological Control**
- **Simplified and Lower Maintenance Cost**

Now **MPSL** is aiming aggressively to broaden its arm through diversification and aiming for exponential growth in the next five years by increasing its capabilities in Man, Management, Machines and financial resources.

MPSL is aiming to leverage itself and become leading Green and Sustainable Services Solutions provider in the region other than **MEP** Domain by introducing following Specialized Services to strengthen the regional presence on EPC basis:

1. **Solar Power Infrastructure:** **MPSL** is aiming to participate in the development of Green Energy Solutions on EPC basis of On Grid and Off Grid Solar Power Generation Infrastructure Projects. We wish to be part of World Bank and United Nations initiated project aimed at providing electricity solutions in the remote, low density and traditionally underserved areas of the region.
2. **Power T&D:** **MPSL** is established to enter into EPC of Power Transmission and Distribution in the region to facilitate Kenya's long-term development plan to feed Power to remote, low density and traditionally underserved areas of the region.

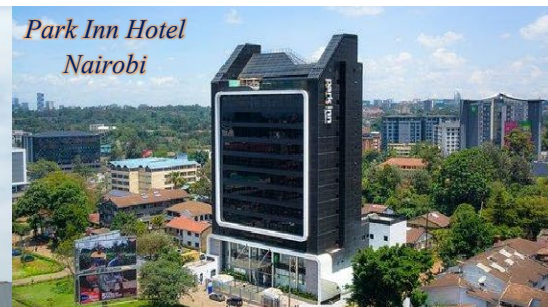

*Garden City
Nairobi*

*Mwalimu Sacco
Nairobi*

*Park Inn Hotel
Nairobi*

Through above diversification, our group company is mainly aiming to generate ample employment opportunities within East African Region to facilitate in uplifting of the society.

MasterPower
Systems Ltd.

We are also determined on satisfying our Clients requirements and serving them repeatedly.

Keeping careful eye on our step by step 22 years achievements in setting up trend of “CUSTOMER NEED, AN APEX REQUIREMENT”, MPSL continue further to attain highest international standards of Quality, Health and Safety to offer wider commitments and capabilities to all New and Existing customers.

VISION

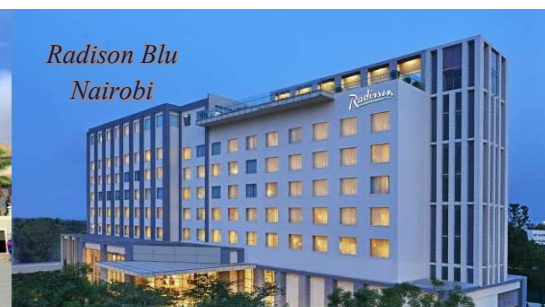

To serve the East African Region as Leading Electromechanical Contractor aiming to contribute in Generation of Employment Opportunities and Uplifting of Society through latest technological advancements occurring in the Region.

MISSION

Accomplishing Completion of Projects and Achieving Highest Quality Levels, Focusing on Client Satisfaction and thus enforcing our Group's Vision towards Region's Development.

VALUES

- People and Relationship
- Business Excellence through continual improvement
- Timely Delivery of Projects
- Dependable and Reliable
- Customer Delight

1. OUR EMPLOYEES

We take care of our employees, their personal career growth and development, their aim of life and shaping them to go forward to take the challenges in their life and career.

2. HEALTH & SAFETY

We are dedicated to take care of the safety of our employees, the individuals who work under our umbrella and the safety of the end user of our expertise.

3. OUR QUALITY

We are dedicated and committed to take care of the quality of our works.

4. OUR ENVIROMENT

We take care of the environment at every step of life.

5. TRAINING & EDUCATION

We are keen on providing further training and development for our employees. We believe in continual learning which translate to a better tomorrow.

ELECTRICAL SERVICES

We offer a full range of Electrical and Energy Solution Services. Our talented and dedicated team of professionals Provide turnkey solutions that embrace innovation including in renewable energy and energy efficiency.

We possess required expertise, equipment and certifications to deliver the latest, state-of-the-art technology solutions within the specified timelines catering to all sectors.

Our Services include but not limited to;

- HV/MV Systems – In Take Sub-Stations including Transformers.
- LV Systems
 - Main Distribution Boards
 - Sub-Main Distribution Boards
 - Distribution Boards / Consumer Units
 - Lighting & Small Power Works
- UPS Installations
- Automatic Voltage Stabilizer installations.
- Diesel Generator installations
- Lighting Control System
- Fire Alarm System
- Emergency Lighting System
- Earthing and Lightning Protection System
- External Works including Street Lighting and Façade Lighting
- Electrical Compliance, Testing and Commissioning.

ELV & ICT SERVICES

We have various ELV and ICT products and services that provide optimum and customized solutions to meet Client's requirements. Our expert team with vast industry Experience in diverse sectors (residential, commercial, industrial, hospitals, hotels, etc.) ensure your ELV and ICT needs are met, utilizing high quality, cost effective and latest technology products in the market. Our services include, but not limited to;

- ICT, Structured Cabling and IPPABX
- FTTH (Fiber-To-The-Home)
- CCTV Video Surveillance System
- Access Control System
- Video Intercom System
- Intrusion Alarm System
- Audio Visual System
- SMATV System
- Public Address and Voice Evacuation System
- Intelligent Building Management Systems (IBMS)
- Home Automation System
- Nurse Call System

HVAC

SERVICES

With the aim of providing thermal comfort for occupants / equipment accompanied with indoor air quality, we combine the very best in Industry experts with modern, efficient HVAC equipment to suit Your needs and budgets, covering Residential, Commercial and Industrial applications including humidity control for Textiles and Pharmaceutical applications. We always endeavor to comply with Overall project requirements and focus on achieving customer Satisfaction and delight.

Our services include but not limited to

- VRF (Mini and Multiple Systems)
 - Cassette Units
 - Decorative Indoor Units
 - Ducted Indoor Units
- Roof Top Packaged Systems
- Standard Split Systems (Free Standing & Hi-Wall Units)
- Chillers
- CHW and DX Systems
- Ventilation Systems
 - Kitchen
 - Car Park
 - Basement
 - Smoke Management, etc.
 - Stair Pressurization System
 - Laboratory Exhaust System
- Data Center / IT Rooms (CCU)

PLUMBING & FIRE FIGHTING SERVICES

Our Plumbing, Drainage and Fire Fighting expertise, coupled with our effectiveness and neat approach, ensure we deliver uncompromised plumbing and firefighting services and solutions.

We utilize the very latest systems, methods and tools in the market to ensure efficiency in our works and timely delivery of services, hence we do not compromise on overall project requirements and focus on achieving customer satisfaction and delight. We have the required expertise, certifications and products to offer full end-to-end solutions meeting client's requirements.

Our Plumbing services include, but not limited to;

- Hot and Cold water Piping (HDPE, PPR, PEX, PVC, CPVC, GMS, BMS, Copper, etc.)
- Drainage Systems (uPVC, HDPE, PP3, etc.)
- Water Storage Tanks (Steel, GRP, PVC, etc.)
- Water Heating Systems:
 - Solar Water Heating (Direct & In-direct)
 - Heat Pumps
 - Tank less Heaters
 - Boilers
- Sanitary & Brass ware Installations
- Domestic Pumps
- Sewage Treatment Plants & Bio-digesters

Firefighting solutions include;

- Fire Sprinkler, Hydrants & Portable Extinguisher Systems.
- Fire Suppression Systems
- Testing, Commissioning, Compliance and Certifications.

HEAD OF DIVISIONS

PRAKASH MODASHIYA

Head of Electrical and Power T&D

- Bachelor of Engineering (Electrical)
- 22 years industry experience in India and Kenya

HARJEET SINGH

Head of ELV & ICT

- Bachelor of Technology (Electronics Engineering)
- 18 years industry experience in India and Kenya
- Certified AV/ICT Professional

GOVIND PINDORIA

Head of Mechanical (Plumbing, Drainage,
Firefighting & HVAC)

- Registered as Plumbing & Drain Layer with Local Authority (NCC)
- 18 years industry experience in Kenya

ENGINEERING CAPACITY

We have in-house engineers and CAD & REVIT technicians to cater to the Projects and client's requirements. To facilitate team to function, we have licensed version of all the latest software / tools required to verify the engineering calculations and to provide an engineered solution to the client's requirements.
