

Quan Ngo Trung

Architect

About me

A highly responsible and detail-oriented architect with over 10 years of experience working at various companies and corporations across Asia and Europe. I am constantly learning and reinventing myself to stay at the forefront of the industry. With my expertise, experience, and skills, I aspire to contribute meaningful value to life and the built environment.

Experiences

2011 - 2017 Working in Hanoi, Vietnam

FAIRVENTURE WORLDWIDE - NGO

- A non-governmental project in collaboration with the University of Stuttgart on energy-efficient usage and green buildings.
- Responsibilities included assessing and evaluating certification documents for green building standards such as LEED, EDGE, and LOTUS.
- Conducted calculations and created thermal, lighting, and ventilation charts.
- Organized workshops, exhibitions, and produced documentary films to raise public awareness about the importance of energy conservation and green architecture.

TEBOBIN - BILFINGER

- International leader in industrial services. Focus: Enhancing efficiency and sustainability in the process industry.
- Create architectural plans for industrial facilities.
- Integrate new technologies and sustainable practices.
- Ensure adherence to safety, quality, and regulatory standards.
- Understand client needs and provide expert advice

2018 - 2023 Working in Czech Republic

PRATR & SIEBERT TALAS 2017-2022

- Design and prepared building permit documents, construction drawings, and site supervision.
- The projects varied across different types of buildings, including hotels, resorts, schools, hospitals, and residential housing.

2023 -2024 Working in Danang, Vietnam

FPT - EDUCATION

- Worked for the Investment and Construction Department of the FPT Educational Institute.
- Participated in nationwide projects related to schools, from the proposal stage, approval of investment policy, preparation of building permit documents, and construction supervision, to project acceptance.
