IMPORTANT NOTICE

Thank you for downloading Love Links from my website. This print and play version is close to the version that is played at Board Game Arena.

It cost me a substantial sum to make the game available to play for free on BGA, and your interest to download the game most probably was kindled by playing the game there.

I would be most grateful if you could contribute - £3, €3.50 US$ 4, or A$ 6 – (or more if you are feeling generous!) which will help me to breakeven on my Board Game Arena investment.

I have a Wise account that allows can accept those payments in those currencies. My Wisetag is: @roberts7198. You can also sign up to Wise at

https://wise.com/pay/me/roberts7198

I also have a PayPal account, so you could send your contribution to @elongouk or through:

https://paypal.me/elongouk

Alternatively you can pay by Card, Apple Pay, Klarna, Link or Revolut Pay at:

https://buy.stripe.com/fZe5mF60p9oK7ZK7ss

If you can't manage either of those but still wish to pay, then please email me at r.w.smith.author@gmail.com and I will provide you with the payment details.

The Zip File

Two PDF print files are included in the download pack, differing only in their page sizes. There are 7 pages to print. The US version is "Letter" and the Rest of World version is "A4". These need to be printed in colour.

The game is most faithfully played when printed on top quality thick transparent printer paper. If you prefer to print on non-transparent paper, then you should use a good quality thick white paper (preferably metric 200-400 GSM, or Imperial 120+ lbs), and glossy or satin paper looks best.

 The best look for the links is cutting to shape, although this can take time. I used an art knife, which Americans usually refer to as a hobby knife, for accuracy and speed. The pack contains 4 sets of gemstones, but if you are playing the 2- or 4-player games, then you will only need 2.

There is a separate PDF scoring sheet which is handy if you play the game a lot, there are separate pages for 2-player and 3-player games. A 4-player game would use the 2-player game scoring sheet. There is a set of rules in another PDF which is 7 pages long.

There are no additional game piece requirements although it might be useful to have boxes or envelopes in which to place the separated stock of bronze, silver and gold links, and the separate stocks of player gemstones.
