

SHIV GANGA ENTERPRISES

BIOMASS PELLETS

Client-Focused Solutions

Delivering high-quality biomass pellets
to meet your energy needs efficiently
and sustainably.

About Us & Our Expertise

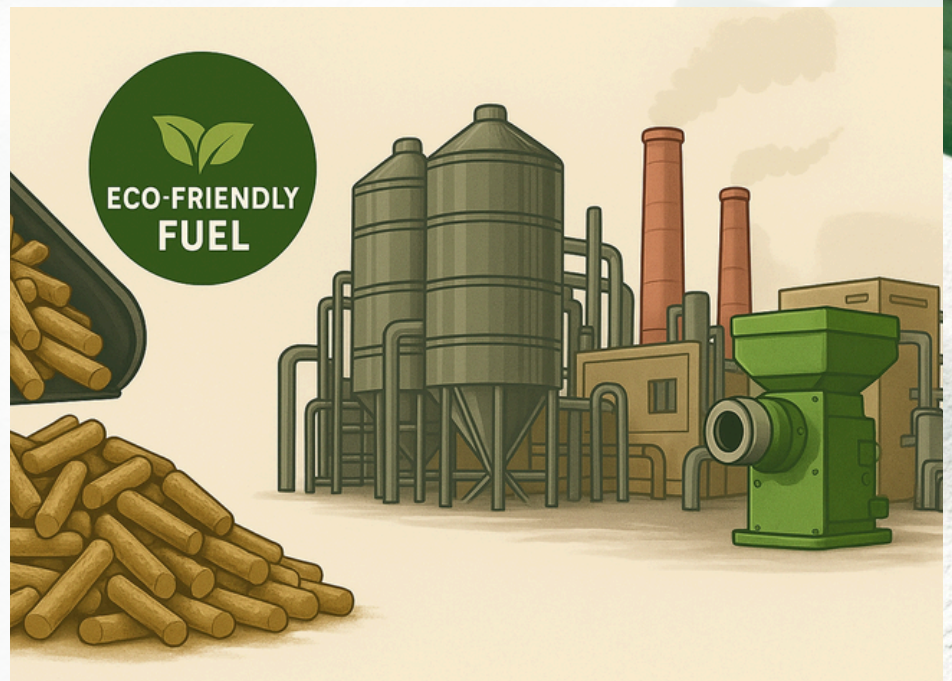

From Waste to Wealth – Sustainable Fuel for Tomorrow

About Us-

Shiv Ganga Enterprises, located in Sindri Industrial Area, Dhanbad, is an MSME-registered renewable energy company dedicated to converting agro-residues into high-quality biomass pellets. With a daily production capacity of 80–100 tons and a proven supply record with DVC, we provide sustainable, efficient, and eco-friendly energy solutions for industries across eastern India.

Our Mission

To promote sustainable industrial growth by replacing fossil fuels with renewable, locally sourced biomass pellets, contributing to India's green energy goals.

Our Capabilities-

- Utilizes paddy straw, cow dung, napier grass, and horticulture waste as core raw materials
- Delivered 16,000 MT of biomass pellets to DVC during FY 2024–25
- Backed by advanced technology from Lehra Fuel Tech Pvt. Ltd. ensuring consistent quality and performance

Why Choose Us

- Proven operational track record with DVC and government tenders
- Advanced pelletizing technology ensuring uniform calorific value
- Strong focus on environmental sustainability and community sourcing
- Reliable supply chain and in-house logistics

At Shiv Ganga Enterprises, we are not just producing pellets — we are building a sustainable energy ecosystem for India's future

Our Products & Industrial solutions

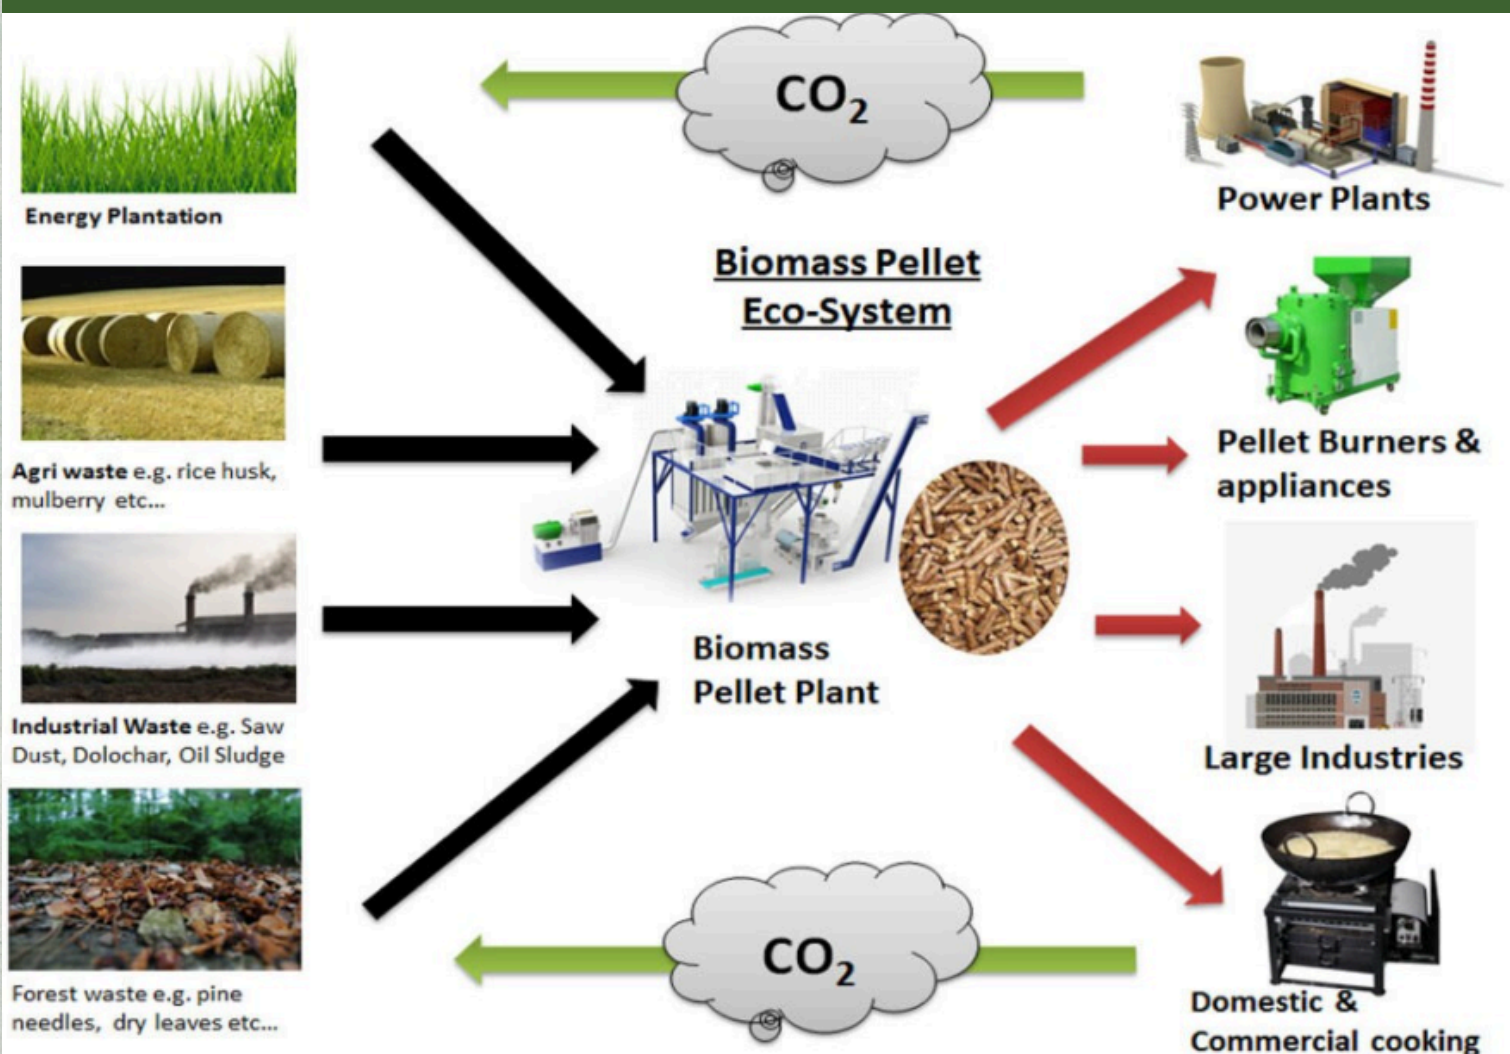

Major Clients-

- Thermal power plants – government and private sector units using biomass co-firing solutions
- Cement and steel industries adopting sustainable fuel alternatives
- Industrial boilers and MSME clusters across Jharkhand and West Bengal
- Export markets for biomass pellets and sustainable energy products

Applications-

- Consistent pellet quality and reliable supply assurance
- Daily production capacity of 80-100 MT
- Strong logistics network for bulk deliveries
- Proven track record with government and private sector clients
