

NOA III

TABLET TELEPROMPTER

Here is the brandnew design for the tablet teleprompter named NOA III.

It's lightweight with the tool-less assembly. The package also includes the free ForPrompt Mobile software application and a bluetooth hand controller called **Mini BT1**.

The NOA III tablet teleprompter is compatible with **tablets and mobile phones up to 13"**.

Moreover here is a new optional use with the monitors up to 13" along with the optional **Forprompt Mobile** software. The NOA III tablet teleprompters can be attached to mini ENG and DSLR cameras with an easy set up in seconds. With the adjustable height feature, you can place your camera exactly the way you want.

An integrated cold shoe mount is also available for optional accessories to attach lights or microphones. As another optional accessory, there is a "return monitor" that can be attached to the underneath of the tablet holder.
