

TATTOO AFTERCARE

If you have any questions, please contact us via email katdemonink@email.com

Remove your tattoo dressing after 3 days. This is a special waterproof and breathable dressing and should NOT be replaced with clingfilm.

Wash your tattoo with warm water and non scented soap twice a day, skin to skin contact only, no sponges. You may shower, but do not soak your new tattoo until your tattoo is fully healed as this could cause your tattoo to lose ink.

Pat Dry your new tattoo with kitchen roll, Do not use a towel as these can harbour bacteria or catch your new tattoo.

Moisturise 2-3 times a day by applying a thin layer of Hustle Butter to the tattooed area (please only use what is recommended by your artist) and do not over apply the cream as this can suffocate the skin.

Continue to apply a thin layer of cream as needed to stop your tattoo drying out until healed (usually around 3-4 weeks).

DO NOT cover your tattoo with any dressings, only wear loose clothing and if your clothing sticks, apply water until it loosens off.

DO NOT rub, pick or scratch your new tattoo, this can remove the ink and could distort the image.

AVOID exposure to sun, sunbathing, tanning beds, swimming and saunas until your tattoo is healed (usually around 3-4 weeks).
