

Join Us in Securing a Greener Future for The Gambia — and the Planet

Across the world, nations are grappling with the urgent realities of climate change — but for small, vulnerable countries like **The Gambia**, the stakes are especially high. Rising sea levels, deforestation, biodiversity loss, and environmental degradation threaten not just our ecosystems, but our people, our culture, and our children's futures.

That's why we founded the **Alliance for Greener Gambia (AGG)** — a homegrown movement rooted in action, equity, and hope. Our mission is simple yet profound:

To ensure The Gambia aligns with global climate goals while protecting the rights of both present and future generations.

Through policy advocacy, community engagement, scientific collaboration, and intergenerational dialogue, we are working to:

- Champion **climate justice** and human rights for all Gambians, especially women, youth, and indigenous communities.
- Develop and implement **sustainable environmental policies** that address the realities of climate change.
- Build bridges between **local action and global commitments**, aligning national climate plans with the Paris Agreement and the 2030 Agenda for Sustainable Development.
- Foster a **culture of environmental stewardship**, where every decision today safeguards the wellbeing of tomorrow.

But to expand our impact, **we need your partnership.**

Your contribution — whether financial, technical, or collaborative — can help us:

-  Build youth-led environmental programs and educational campaigns
-  Develop data-driven climate and sustainability policies
-  Restore degraded ecosystems and protect biodiversity
-  Amplify the voices of Gambians in global climate conversations

At AGG, we believe that **our greatest inheritance is not what we leave behind, but what we pass on to the future.** With your support, we can ensure that inheritance is a sustainable, equitable, and thriving Gambia.

We invite you to join us — as a donor, ally, or advocate — in shaping a future that honors our planet and its people.

With gratitude and purpose,

M. Kalipha Camara

Founder, *Alliance for Greener Gambia (AGG)*

In partnership with **Brighter Earth Solutions**

For today. For tomorrow. For generations to come.
