Political Profile

Iraqi Istklal Assembly

Vision, Principles, and Roadmap for National Renewal

About Us

We are the Iraqi Istklal Assembly, a national opposition movement that emerged from within Iraq to unify the efforts of Iraqis striving for genuine change.

Our assembly was founded in response to the continued failure of the political system over the past two decades. Our goal is to restore national sovereignty and build a strong, independent, and just state.

We firmly believe that decision-making in Iraq must rest solely in the hands of Iraqis, and that national interest must take precedence over all sectarian, partisan, ethnic, or factional considerations.

Mobilizing National Capacities

Unifying the Sectors of Iraqi Society

Restoring National Decision-Making

Confronting Foreign Influence

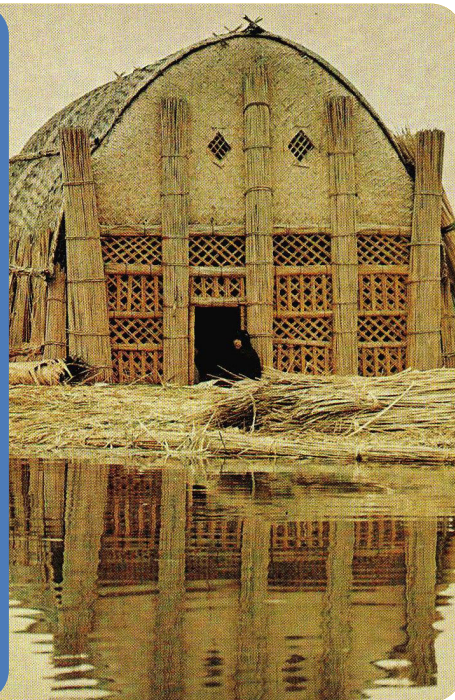

Building a Democratic Civil State of Institutions

Establishing the Rule of Law

Achieving Social Justice

Equality Among Citizens

Complete Independence

Mission

National will... to build an independent state and inviolable sovereignty.

Our Rationale

- The political process has failed to meet the aspirations of the Iraqi people since 2003, particularly in matters of sovereignty, security, and justice.
- Corruption has become deeply entrenched within state institutions, leading to the collapse of public services and the erosion of citizens' trust in the state.

- Foreign interventions has undermined national decision-making and turned Iraq into an arena for settling regional and international conflicts.

- Socioeconomic crises have worsened, exacerbated by the persistent absence of justice and equality.

- The rule of law is absent, while uncontrolled weapons outside state authority continue to weaken the state's legitimacy and institutions.

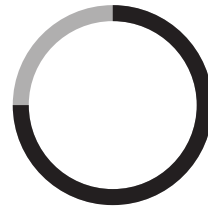

Goals

Restoring Iraqi National Decision-Making from the Grip of Foreign and Regional Powers

Building a strong and independent state of institutions based on the principles of citizenship and justice.

Ending foreign influence and interventions in both the internal and external affairs of Iraq.

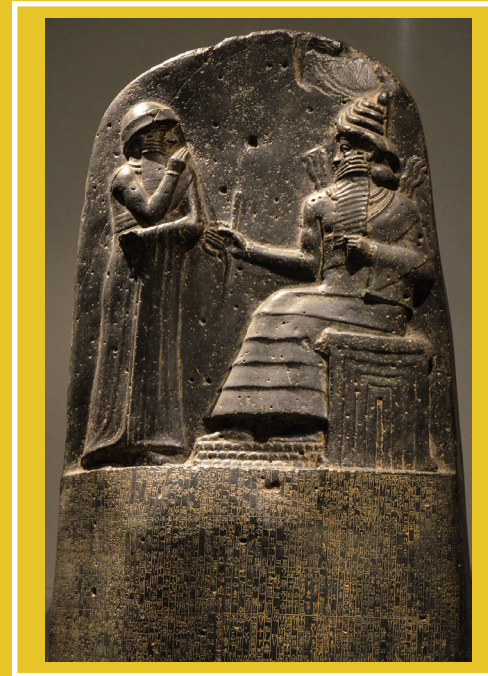

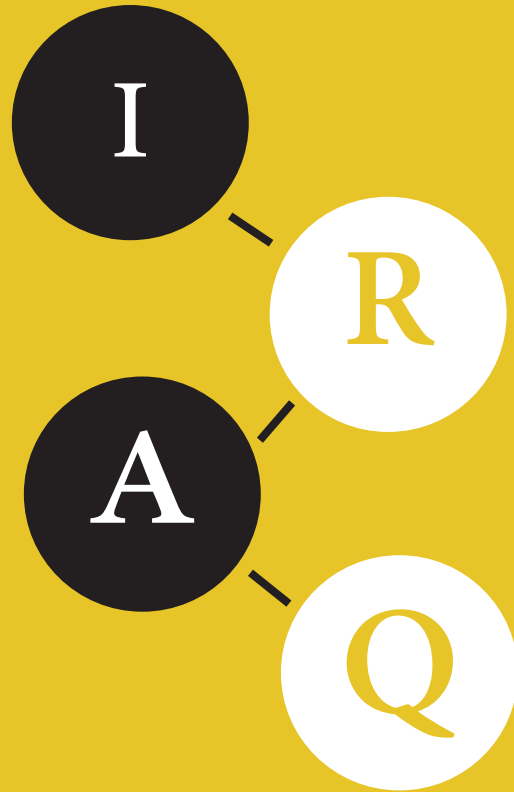

Achieving the rule of law and ensuring that arms are solely in the hands of the state.

Combating political, administrative, and financial corruption in all its forms.

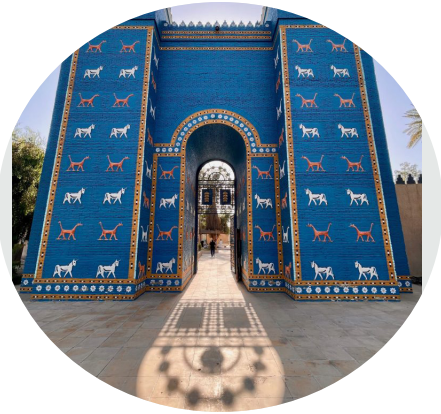

Strengthening the unity of Iraq, both its people and land, and rejecting all forms of sectarian or ethnic division.

What Do We Want?

We aspire to establish a stable, democratic, and fully sovereign state that preserves its security and territorial integrity, and maintains a monopoly on arms, with no parallel armed entities.

We aspire to a state that:

- Guarantees freedom, justice, and equality for all its citizens.

- Promotes social, political, and economic stability.

- Develops foreign relations based on shared interests, contributing to regional and global peace and security.

- Protects the interests of its people and places human dignity and freedom at the core of national priorities.
- Poses no threat to its neighbors but seeks to be a constructive and reliable partner in its regional and international environment.

Political Ambition and Governance Capacity

A

We aspire to assume leadership in Iraq through legitimate democratic mechanisms, grounded in our commitment to the peaceful transfer of power and respect for the will of the people.

B

We possess the competence and integrity required to manage the state professionally, steering clear of sectarianism, quota-based politics, and illegitimate influences.

C

Our vision is centered on building robust institutions governed by sovereign national decision-making, prioritizing the interests of citizens, and decisively rejecting external interference and unauthorized armed actors.

Our

Path to Achieving Our Goals

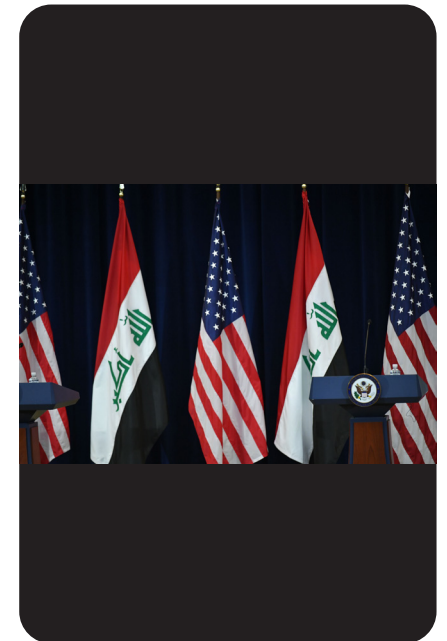

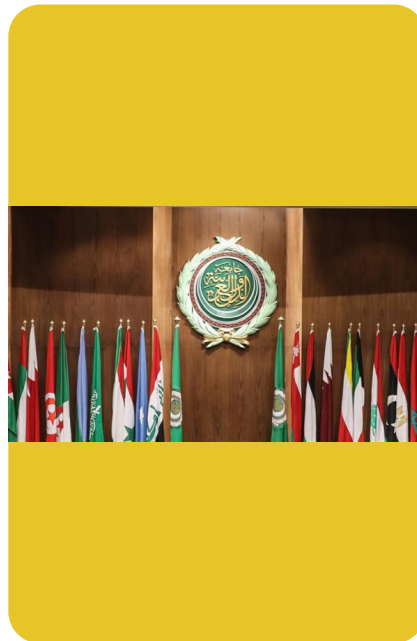

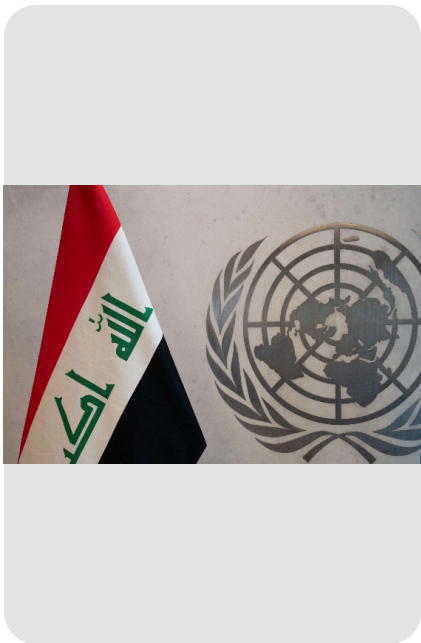

- Commitment to peaceful political engagement within the constitutional and legal framework.
- Channeling the capacities and potential of all segments of society—particularly youth—within an inclusive opposition movement.
- Forming reformist internal alliances to confront forces of corruption and external subjugation.
- Participating in fair elections as stipulated in the Constitution, the Political Parties Law, and related legislation, by presenting qualified and honest candidates who genuinely represent the will of the people.
- Promoting sovereignty, citizenship, justice, and accountability as essential societal values.

Common Interests with the Region and the World

We seek to establish balanced and open relations with our regional and international partners, based on mutual respect, non-interference in internal or external affairs, and cooperation in economic and security fields.

We believe Iraq must be a stabilizing force in the region and an honest partner in supporting global peace and security — without compromising its national sovereignty.

Conditions for Our Participation in the Electoral

We will not participate in any electoral process unless the following conditions are met:

01

Condition One

- Elections must be free and fair, ensuring equal opportunities for all national forces.

02

Condition Two

- The electoral process must be free from the influence of arms, and no party or entity with an armed wing should be allowed to influence voters.

03

Condition Three

- All forms of foreign intervention and political funding must be strictly prohibited.

04

- Elections must be genuinely democratic, not merely symbolic, and overseen by an independent and impartial judiciary to guarantee the integrity of results.

05

- A safe and neutral environment must be ensured that allows the true and free expression of the popular will.

Our Core Principles

” Towards an independent, sovereign state, just in its governance, and united in its people.

“

•**Citizenship First:**
The interest of the Iraqi citizen takes precedence over all partisan, sectarian, or regional affiliations.

•**Sovereignty:**
We reject all forms of foreign domination and dependency.

•**Peaceful Democratic Change**
We believe in change through democratic and peaceful means.

•**Transparency and Accountability**

A stable state cannot exist without confronting corruption and ensuring truth and justice.

- Rule of Law

No entity may possess weapons outside the authority of the state.

- The People Are the Source of Authority

Authority derives from the citizen's free will and participation, guided by justice—this is the cornerstone of
