BAMBOO SOCK

OUTSIDE

INSIDE

Even the best shoes won't deliver on their promised comfort if you don't wear the right socks

Did you know that feet have the highest density of sweat glands? This helps our bodies to cool down, but can also lead to wet, uncomfortable feet and skin problems such as blisters and athlete's foot. The Safety Jogger Bamboo Sock offers a solution to these problems with the following benefits:

Eco friendly
Sweat absorbent
Antibacterial

Thermoregulating
Soft and hypoallergenic
A perfect fit

Elastane content

Offers light compression to reduce foot swelling, especially during long workdays.

Breathable design

Thin, open knit allows warm, humid air to escape, enhancing airflow and comfort.

Raised heel area

Reduces friction and pressure points at the heel.

Terry loops

Act as cushions to reduce pressure while standing or walking.

Terry cloth structure

Absorbs moisture effectively to keep your feet dry.

Damping cushion

Strategically placed at the instep to ease pressure from tight shoes

Dense terry cloth structure at the tip

Eases pressure and discomfort for those wearing safety shoes with toe caps.

ACCESSORIES

SJ BAMBOO SOCK

2 PAIRS PER PACK
2 KINDS OF CARTON PACKAGE
