

Licensing & Technical Specifications

Master-grade visual assets engineered for spatial integration, from precision horology to large-format architectural environments.

Corporate & Commercial Licensing

Tier	Specification	Distribution & Usage	Price
Professional Digital	Native Master TIFF	Unlimited Digital: Perpetual use for websites, corporate reports, and apps. No expiration.	Contact for quote
Executive Display	Native Master Archive (Subject to Asset-Specific Scale Authorization)	Unlimited Digital + Installation: Perpetual digital use + rights for high-res lobby displays or digital installations.	Contact for quote

Fine Art

Assets are produced in a **Vivid Matte** finish (**Technical Grade: Satin White Base**)—a soft-touch, anti-glare surface on high-grade aluminum. This substrate is calibrated to provide the depth of a traditional matte finish while maintaining the chromatic vibrance of a white-base celestial master.

Tier / Size	Specification	Application / Use Case	Price
Small Square (12" x 12")	Aluminum / Vivid Matte	Private Office / Personal Collection	Contact for quote
Small Portrait (12" x 18")	Aluminum / Vivid Matte	Accent Pieces / Entryways	Contact for quote

High-Horology & Watch Dial Licensing

Tier	Production	Usage Rights	Price
Bespoke / High-End	Up to 100 units	Signature Dial Art + Global Campaign	Contact for quote
Luxury / Mid-Tier	101 – 1,000 units	Asset licensing for dial + Marketing	Contact for quote
Commercial / Global	1,001+ units	High-volume production integration	Contact for quote

- **Standard Rates:** All listed prices are for Non-Exclusive, Perpetual usage unless specified otherwise.
- **Exclusivity Adjustment:** Optional exclusivity (preventing use by competitors or other entities) is available starting at a 1.5x multiplier of the base rate.
- **Full Buyouts:** Comprehensive transfer of rights for "Signature Assets" is quoted on a per-project basis.

Editorial and Academic Licensing

Tier	Specification	Use Case	Price
Digital Editorial	Optimized TIFF	Online journals & scientific articles. Output capped at Native Data Limit.	Contact for quote
Academic Hybrid	300 DPI High-Res	Combined Digital + Print (<5,000 units) for textbooks & peer-reviewed journals.	Contact for quote
Global Editorial	Highest-Available Native Master	Worldwide multi-platform rights. Authorized for Cover Art & high-circulation print.	Contact for quote

Note: Specification availability is determined by the Native Data Limit of the individual asset. “Archive Master” refers to files authorized for large-format scaling. Assets with restricted physical reproduction are available up to the “Native Master TIFF” or “High-Res” specification only.
