

ERIC OUAKNINE

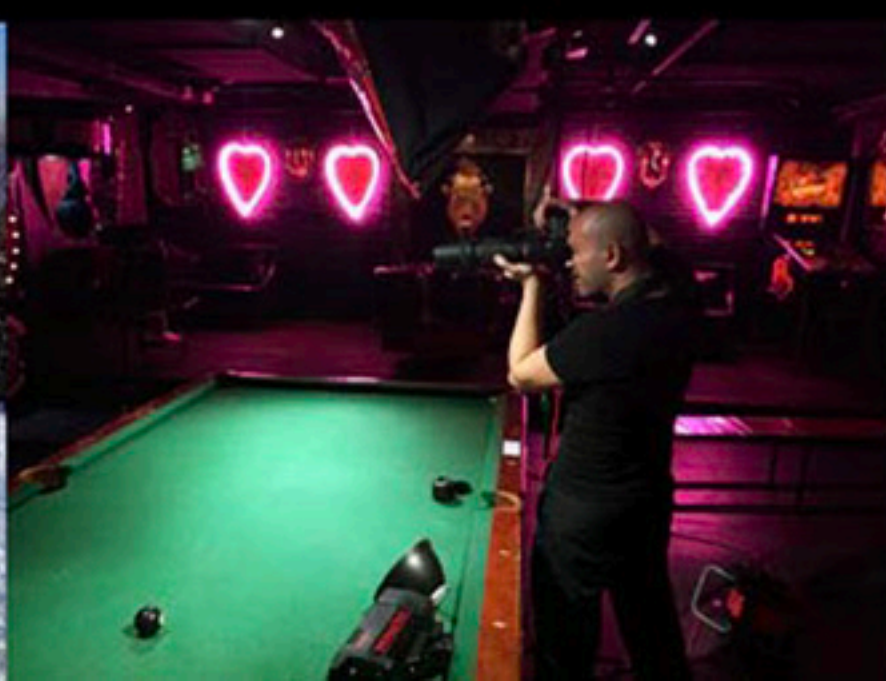

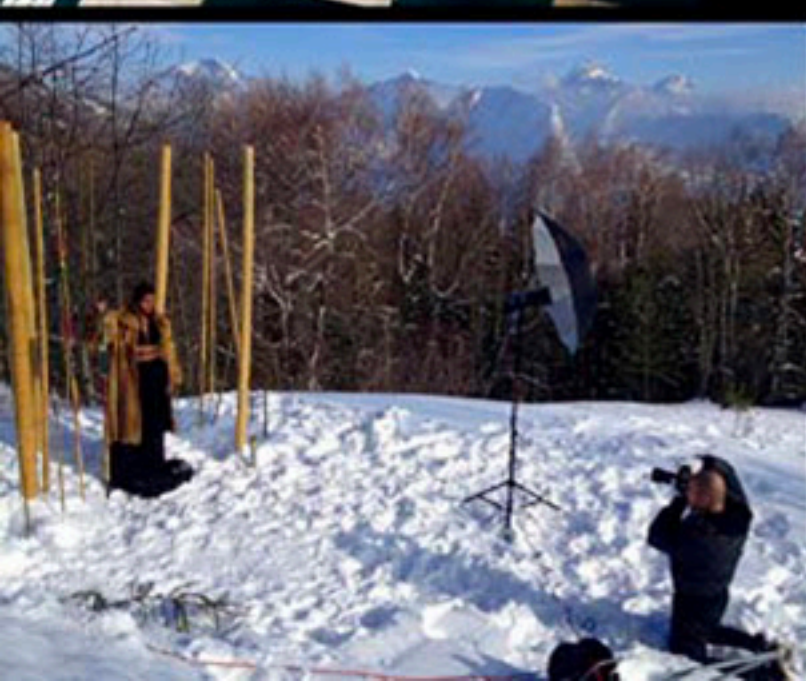

PHOTOGRAPHER

"French International Fashion Photographer Eric Ouaknine, passionate about art & travel, currently based in Paris, possesses a unique style that is red-hot, beyond fashionable and completely original. He has traveled the world and been inspired by everything and everyone he connects with. Mainly shooting fashion editorial and advertising campaigns, Eric began his photography career in 2003 shooting landscapes, model portfolios, and portraits. His exotic ad campaigns and exquisitely styled couture photos are conveyed through his completely original artistic vision. Eric's personal approach to his business is based on his firm belief in the value of the client relationship. Aiming to deliver more than just an image, his goal is a heightened creative sensitivity bringing a responsive awareness to the visual message through the photographic medium."
