Elevate Your Environment

Astrapia's UPVC windows play a pivotal role in environmental conservation by significantly reducing energy consumption. Their exceptional insulation properties minimize heat loss in the winter and heat gain in the summer, ensuring that heating and cooling systems work more efficiently. This reduction in energy usage translates directly to lower greenhouse gas emissions, contributing to a decrease in the carbon footprint of homes and buildings equipped with Astrapia windows. Furthermore, the longevity and durability of UPVC materials mean fewer replacements and less waste over time.

Additionally, Astrapia's commitment to sustainable practices extends to the materials and manufacturing processes used in creating their UPVC windows. The production involves minimal waste and utilizes eco-friendly materials that can be recycled at the end of their life cycle. By choosing Astrapia's UPVC windows, consumers support a brand dedicated to reducing environmental impact through innovation and responsible practices, ultimately promoting a greener and more sustainable future for all.

ASTRAPIA'S PREMIUM UPVC OFFERINGS

ASTRAPIA NOT ONLY DELIVERS QUALITY BUT ALSO OFFERS UPTO 15-YEARS OF GUARANTEE* ON ALL COLOR PROFILES AND UPTO 20-YEARS OF GUARANTEE* ON SAFAR-WHITE PROFILES

CASEMENT DOORS

Astrapia's uPVC casement doors, ideal for gardens, terraces, or main entrances, feature multiple sashes and come in various colors. Expertly crafted for larger openings, they ensure security, insulation, and enhance your home's aesthetic appeal.

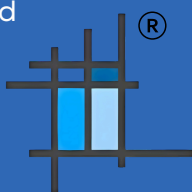

SLIDE & FOLD DOORS

uPVC bi-fold sliding doors by Astrapia enhance your home with a sleek, contemporary look, maximizing usable space. These precision-crafted doors are perfect for any lounge, kitchen, or dining area, offering an artistic way to open up your house.

SLIDING DOORS

Sliding doors have two or more sashes on tracks, allowing horizontal movement. The mechanism can slide left or right, with sliders at the top or bottom. Installed parallel to walls, they typically feature one fixed and one movable panel.

CASEMENT WINDOWS

Astrapia's uPVC Casement Windows, ideal for gardens, terraces, or main entrances, feature multiple sashes and come in various colors. Expertly crafted for larger openings, they ensure security, insulation, and enhance your home's aesthetic appeal.

COMBINATION WINDOWS

Astrapia's uPVC Combination windows blend casement, fixed, and sliding elements, offering design flexibility. Tailor them to your needs, enhancing functionality, insulation, and aesthetics. Perfect for versatile living spaces, they provide a stylish and efficient solution.

SLIDING WINDOWS

Astrapia's uPVC Sliding Windows have two or more sashes on tracks, allowing horizontal movement. The mechanism can slide left or right, with sliders at the top or bottom. Installed parallel to walls, they typically feature one fixed and one movable panel.

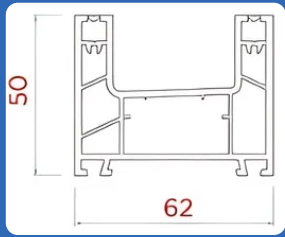

BAY WINDOWS

Astrapia's uPVC bay window combines three or more windows projecting outward from the main wall, adding elegance and functionality. They come in square, polygon, semi-hexagonal, or semi-octagonal shapes. Renowned for their sophisticated design, bay windows enhance any room's aesthetics.

ASTRAPIA'S PREMIUM COLOUR RANGE

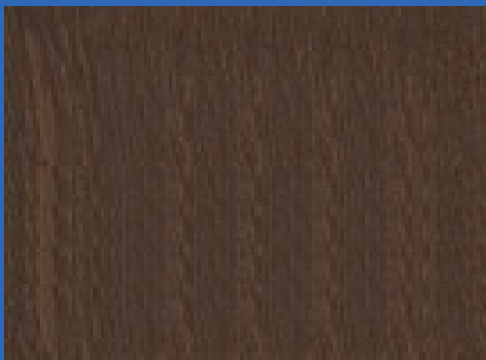

SAFAR-WHITE

Transform your living space with the timeless elegance of Astrapia's Safar-White finish. This pure, flawless hue radiates sophistication and creates a sense of cleanliness and brightness in any room. Astrapia's Safar-White is versatile, seamlessly blending with various interior styles while enhancing natural light and space. Meticulously crafted for superior durability and performance, these windows are not just a beautiful addition but a testament to quality and longevity. Choose Astrapia's Safar-White for a classic, refined, and enduring look.

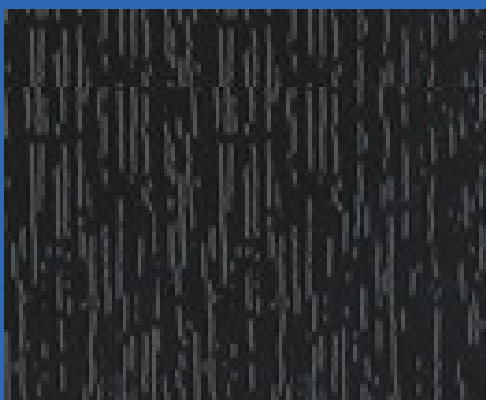

DONIN-OAK

Elevate your space with the natural warmth and charm of Astrapia's Donin-Oak finish. This rich, golden hue brings a touch of nature indoors, creating a welcoming and timeless atmosphere. The Donin-Oak color beautifully complements a variety of interior styles, from classic to contemporary, adding an element of elegance and refinement. Astrapia's commitment to craftsmanship ensures that each window not only enhances the aesthetic appeal of your home but also provides exceptional durability and performance. Choose Donin-Oak for a blend of natural beauty and superior quality.

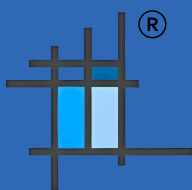

COOPERNUT

Introduce a sense of rich, natural elegance to your home with Astrapia's CooperNut finish. This deep, warm hue exudes sophistication and creates a cozy, inviting atmosphere. The CooperNut colour beautifully complements both traditional and contemporary interiors, adding a touch of timeless charm and refinement. Crafted with meticulous attention to detail, Astrapia's CooperNut windows not only enhance the aesthetic appeal of your space but also ensure exceptional durability and performance. Choose Astrapia's CooperNut for a blend of classic beauty and high-quality craftsmanship that stands the test of time.

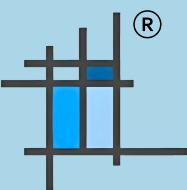

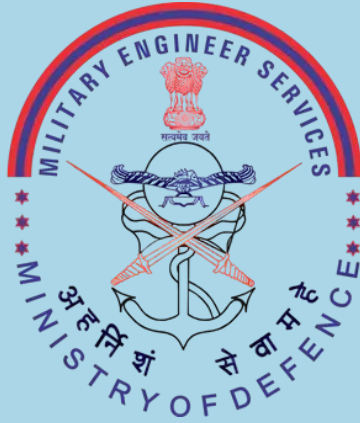

LANCE-BLACK

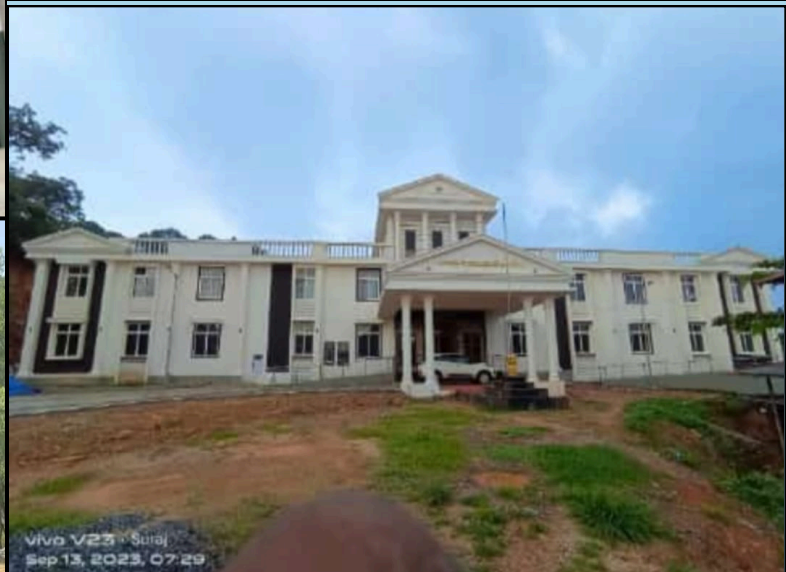

Make a bold statement with the striking elegance of Astrapia's Lance-Black finish. This deep, sophisticated hue adds a touch of modernity and luxury to any space, creating a stunning contrast that highlights architectural features and interior decor. The Lance-Black colour seamlessly blends with contemporary and classic styles, exuding a sense of refinement and timeless appeal. Crafted with precision, Astrapia's Lance-Black windows offer not only aesthetic excellence but also exceptional durability and performance. Choose Astrapia's Lance-Black for a look that is both dramatic and enduring, ensuring your space remains stylish and chic.

The ASTRAPIA Advantage:

Astrapia's UPVC range provides an efficient solution for your building requirements. Its streamlined design prevents rainwater infiltration, while the innovative cavity structure optimizes heat retention and sound insulation. Additionally, the V-groove between the glazing bead and window sash simplifies glass installation and removal, ensuring ease and flexibility.

The sleek, streamlined profile offers a refined yet elegant aesthetic.

The 20 mm groove provides a secure and stable glass installation, effectively enhancing heat resistance and offering superior noise insulation.

The V-groove between the glazing bead and window sash facilitates easy glass installation and removal, ensuring a smooth and efficient process.

The premium formula guarantees a flawless surface with a natural luster, coupled with excellent resistance to weathering.

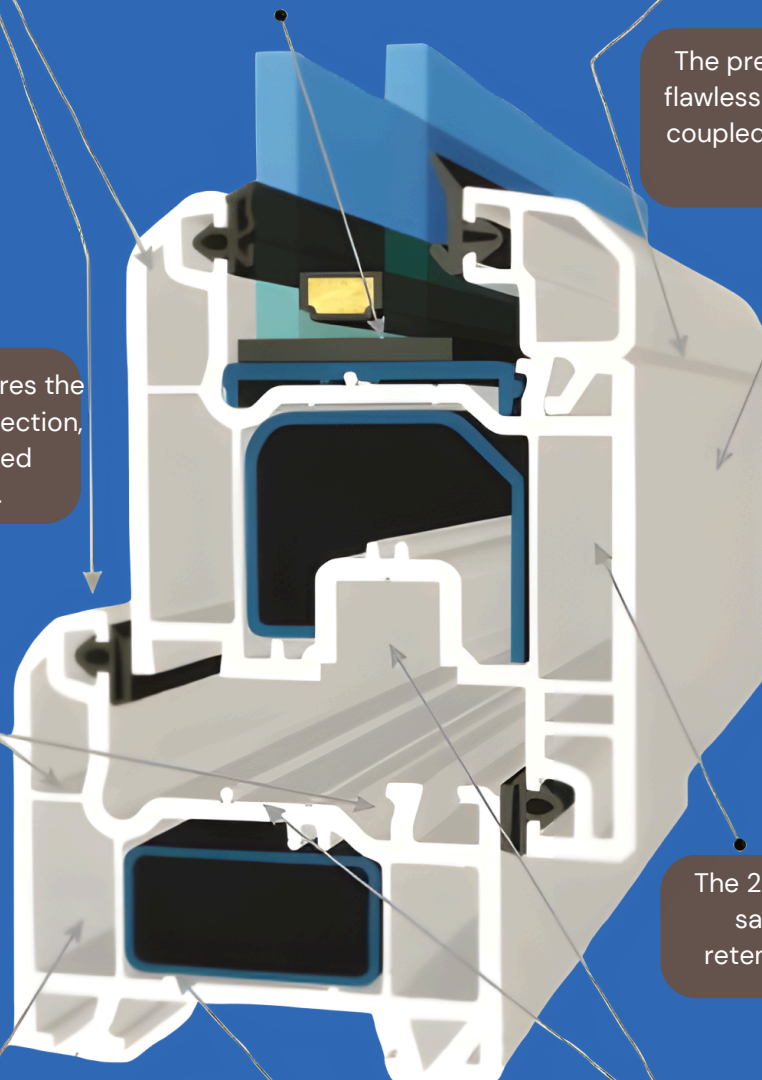

The double-draining through ensures the profile can be opened in either direction, inward or outward, for enhanced versatility and functionality.

The 2.45mm thick, three-chamber profile offers enhanced heat retention and superior noise insulation.

The 1.5 mm high-quality galvanized steel significantly enhances the profile's strength and durability.

The 2.5mm-thick, three-chamber sash delivers superior heat retention and energy efficiency.

The Japan-imported hardware notches are expertly crafted to fit a variety of both local and global fittings, with a specially positioned notch for the friction hinge ensuring exceptional precision and performance.
