

Katali Rogathe Simiye case study.

Katali Rogathe Simiye has been at Engishon Microfinance Ltd. client since 2022. She is a single mother with two children. She received her 1st loan of 300,000 TZS (approx. \$120 USD) from Engishon in 2022. She used it to grow her business selling fruit and vegetables. Since then, she has been able to help her family by financially supporting her and her children's needs. In 2023, after successfully completing repayments for the 1st loan, she took a 2nd loan for 800,000 TZS (approx. \$320 USD). She was excited to add this to her capital and has been able to move into a small shop for selling a variety of foods and household items. She is very grateful to the Engishon team for the loan and the training she receives and plans to take 3rd to expand further when she is ready.
