

FARAJA DIGODIGO VICOBA GROUP CASE STUDY

Faraja Digodigo VICOBA was formed in 2020 and is a group of very strong women. They had been saving their weekly contributions for all of 2023 and, by the end of the year, had accumulated an impressive 32 Million Shillings. This has allowed them to be resilient through what have been extraordinarily heavy rains that have disrupted their normal seasonal livestock and farming businesses.

These 30 women had previously taken group loans from their District Council but now prefer to work with Engishon to meet their increasing needs for capital. Through Engishon they learned to open a bank account and secure their savings for future use. Through their careful financial management of their savings and loans, these women whose continue to have the capacity to meet their family needs without depending upon a man to provide for them. Since taking an Engishon loan they have never missed a repayment.
