

Connected for Change

Smart Tech, Smarter You

Digital and AI Literacy Program

Fall 2025 Pilot Program

Want your class to pilot the program or explore a specific module? Reach out to us at info@connectedforchange.ca for more information.

Curriculum-Aligned

Connected to Ontario's Language and Science & Technology expectations for Grades 6-8.

Flexible Delivery

Self-paced modules accessible online via Canvas Learning Management System and adaptable for classroom or at-home learning.

Interactive & Differentiated

Lessons include integrated feedback, hands-on activities, educational games, independent projects, and automated quizzes.

Teacher Support

Provides teacher resource guide, rubrics, progress updates, and monitoring of student work by an experienced Ontario Certified Teacher (OCT), qualified in junior/intermediate Science and Mathematics.

Student Empowerment

Activities on AI, digital footprints, misinformation, deepfakes, and more.

About Us

Connected for Change is a new, grassroots initiative that is dedicated to empowering youth through educational programming focused on equity, critical thinking, and social responsibility.

We believe that education is the most powerful tool we have to create positive social change, and we're committed to providing the resources and support that enable young people to build a more equitable future for all.

Our flagship program, *Smart Tech, Smarter You*, offers lessons on topics such as **digital footprints, misinformation, artificial intelligence, machine learning, and algorithmic bias.**

Visit our website to learn more about *Connected for Change* and the *Smart Tech, Smarter You* Program. View student activity highlights, sample lessons, program pathways, and more!
