UNLOCK MULTIPLE REVENUE STREAMS

Why join the industrial water industry?

ENTREPRENEURSHIP

Launch a Packaged Drinking Water Project or assemble and sell your own brand of RO plants.

CONSULTING

Become a Modern RO Specialist consultant advising industrial clients on setup and efficiency.

TECHNICAL SERVICE

Specialize in installation, repair, and component trading for inflation-proof earnings.

CAREER ADVANCEMENT

Secure high-demand roles as an RO/WTP Plant Operator or expert technician.

WHO IS THIS TRAINING FOR?

Designed for both new entrants and industry veterans.

THE ENTREPRENEUR

New business owners, Graduates starting a venture, and owners of chilled drinking water projects.

THE PROFESSIONAL

Existing RO plant operators (school, medical, industrial) and administrators in the water sector.

THE UPGRADER

Experts in domestic RO purification looking to scale up to Industrial/Commercial systems.

THE STRATEGIST

Investors and marketers wanting to deeply understand the technical asset they are managing.

SYLLABUS PART I: THE FOUNDATION

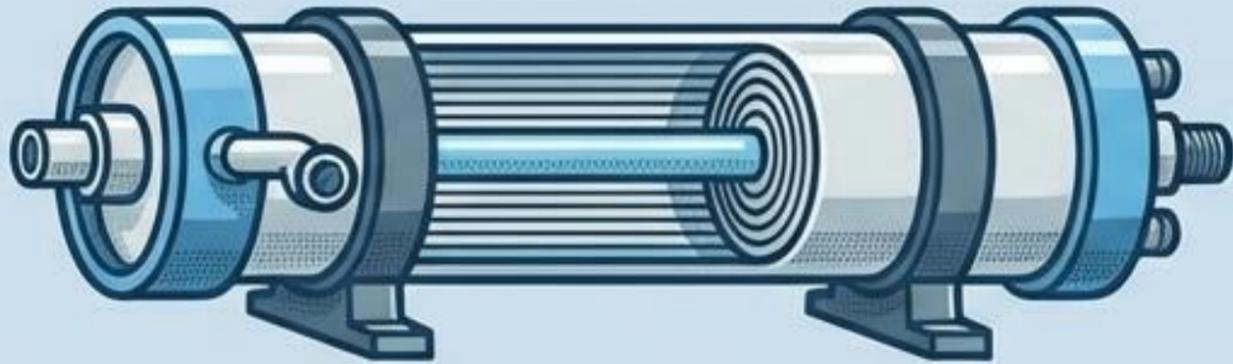

Building a Foundation on Water Science

SYLLABUS PART II: CORE TECHNOLOGIES

Deep dive into the heavy machinery of the industry.

REVERSE OSMOSIS (RO)

- Filtration design criteria & component configuration
- Membrane selection strategies
- Troubleshooting complex RO faults
- High-pressure pump dynamics

WATER SOFTENERS

- Softener design types & limitations
- Iron removal filtration techniques
- Whole-house filtration systems
- Whole-house filtration systems
- Maintenance and troubleshooting

SYLLABUS PART III: AUTOMATION

Mastering Digital Control and Electrical Systems

THE BRAIN

Auto Control Frameworks in modern plants.
Logic and sequence management.

CHEMICAL MANAGEMENT

Dosing necessities and descaling
procedures. Precise dosing requirements
for membrane longevity.

THE NERVOUS SYSTEM

Digital control system wiring.
Electrical troubleshooting and panel
safety.

SYLLABUS PART IV: BUSINESS & COMPLIANCE

Navigating the regulatory landscape.

We teach you the business, not just the science.

@aowsindia

THE AOWS METHODOLOGY

Learn. Apply. Certify.

MEET YOUR TRAINER

Guided by Industry Veteran Mr. M. Chandra

27 YEARS

of experience in the water purification industry.

- Renowned leadership trainer and business coach.
- Specializes in revolutionizing training methodologies.
- Expertise in technical execution and business motivation.
- Focuses on releasing the latent potential of every participant.

THE COMPLETE PACKAGE

An All-Inclusive Educational Experience

HOSPITALITY

Complimentary tea and delicious lunch provided daily.

ACCOMMODATION

Comfortable shared hotel stay for outstation participants.

GUIDANCE

One full year of dedicated post-training support.

MATERIALS

Comprehensive training on theory and practicals.

SUPPORT BEYOND THE CLASSROOM

We don't leave you alone after the workshop.

THE NEXT 12 MONTHS

JOB PLACEMENT

Alerts on exciting job vacancies tailored to your new skills.

BUSINESS SETUP

Invaluable assistance for entrepreneurs launching projects.

MENTORSHIP

Access to expert guidance during your critical first year.

EVENT DETAILS

Mark your calendar.

LOCATION

Bangalore (Gandhinagar), Karnataka

DATES

22-23-24 March 2026

TIME

10:00 AM to 6:00 PM daily

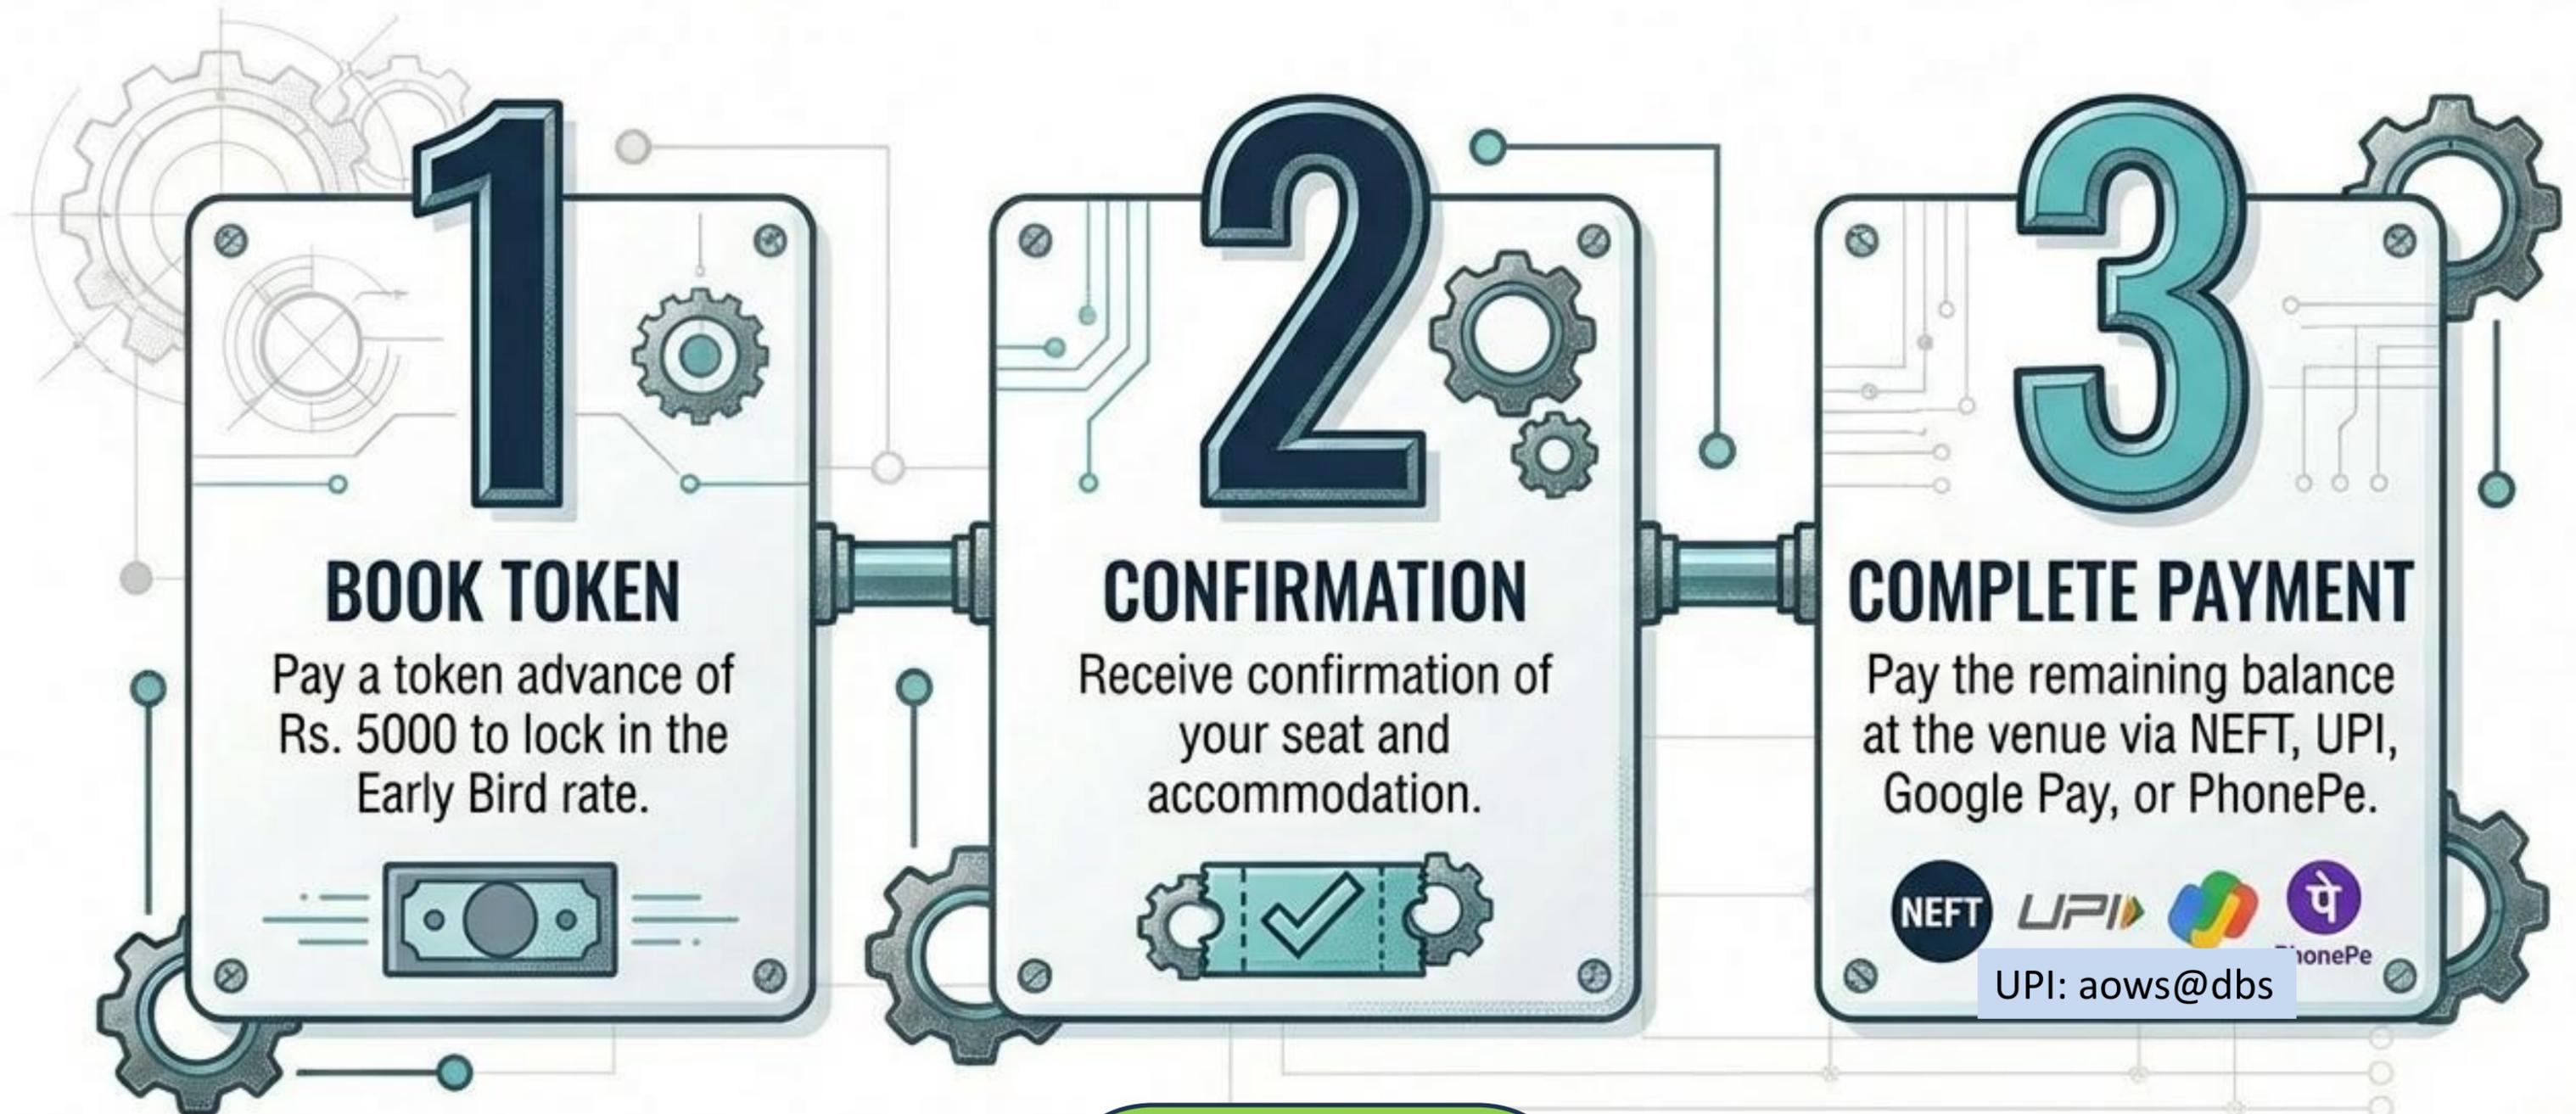

INVESTMENT & EARLY BIRD ADVANTAGE

Book early to save Rs. **7400**

HOW TO ENROLL

Secure your spot in 3 simple steps.

BOOK NOW

JOIN THE MISSION FOR A WATER-SECURE PLANET

At the Academy of Water Science, we empower the next generation of professionals to create a resilient planet. Transform your future today.
