

Wastewater Treatment Master Class by AOWS

Training on Design & Operation of Wastewater Treatment Processes

@ Bangalore on 6 & 7 September 2025

2 Full Days (Saturday & Sunday)

The poster features a collage of four hexagonal images: top-left shows a wastewater treatment facility with a large circular tank; top-right shows turbulent water flowing through pipes; bottom-left shows a large green industrial tank; bottom-right shows a blue and green industrial structure. The text is arranged on the left side, with the AOWS logo at the top. The main title 'WASTEWATER TREATMENT' is in large green letters. Below it, 'MASTER CLASS IN BANGALORE' is in a yellow box. '2 FULL DAYS 6-7 SEPT. 2025' is in red text. 'Saturday & Sunday' is in a yellow box. Contact information includes a phone number and a website URL. A purple 'Register Now' button is present. A green triangle at the bottom right contains the text 'SAVE ENVIRONMENT'. A yellow box at the bottom left says 'LIMITED SEATS ONLY'.

Academy of Water Science – AOWS is inviting you to avail of this value-added opportunity to enhance your knowledge of wastewater treatment design & operation by participating in the Wastewater Master Class on Design & Operation of Various Wastewater Treatment Processes for Sewage Treatment Plants (STP). This Training Program will benefit professionals in all aspects of wastewater treatment, design, operation, planning and management. Kindly go through the details below and nominate delegates from your organisation.

BENEFITS OF ATTENDING: -

This 2-day program on **Process Design, planning for execution and Commissioning of WWTPs** will bring together the design of wastewater treatment processes, sludge treatment selection and design of physical, chemical and biological treatment processes, and design methodologies for water recycling. Our Guest Trainer, **Dr Shashibhushan Biliangadi** has 15 years of experience and is among the top wastewater instructors in India. **Dr Shashibhushan Biliangadi** is a consultant, designer and training instructor for wastewater treatment plants for many industries.

This program will show you how to carry out the key steps in the process design of all kinds of wastewater treatment and recycling plants. It will provide an essential refresher on the relevant underlying principles of engineering science, water chemistry and biology, together with rules of thumb commonly used by experienced practitioners. **This master class is especially beneficial to beginners and those having experience of 2-3 Years in the same field.**

About the Trainer:

Dr Shashibhushan Biliangadi

Civil and Environmental Engineer

Dr Shashibhushan Biliangadi has been working on various Research and Consulting projects since 2015. He holds a PhD degree from IIT Bombay and an MTech from IIT Guwahati in Civil and Environmental Engineering. His areas of expertise are Wastewater Treatment, Environmental Risk Assessments, Baseline and Morphological studies, and Water Management for Industries. He has experience working in research

Schedule & Topics to be covered: -

Day -1: 6th Sept. 2025

Morning Session: 10:00 AM to 1:00 PM

Introduction to Wastewater Treatment

1. Basic characterization of Wastewater
2. Pollution control board norms and how to design to meet complaints
- 2.2. Calculating sewage flow /demand as per codes: Treatment flowchart of STPs

Primary Treatment Processes

3. Primary Treatment Process
 - 3.1 Bar Screen design and selection
 - 3.2 Oil & Grease Chamber
 - 3.3 Coagulation – Flocculation & Sedimentation

Post Lunch Session: 2:00 PM to 5:30 PM

Secondary Treatment Processes

4. Aeration /Biological treatment
 - 4.1 Diffuser selection
 - 4.2 Agitator or pump design
 - 4.3 Blower selection

- 4.4 Valves and plumbing in biological tanks
- 5. Anoxic tank
- 6. Moving Bed Biological Treatment (MBBR)
- 7. Sequential Batch Reactor (SBR)

Day -2: 7th Sept. 2025

Morning Session: 10:00 AM to 1:30 PM

- 1. Biological Treatment continued
- 2. Secondary settling tank
- 3. Disinfection (UV /Chlorination), Sand and Carbon filter design
- 4. Troubleshooting issues in STP

Post Lunch Session: 2:00 PM to 5:30 PM

Planning for Execution & Commissioning

- 5. Plumbing materials selection and installation
- 6. Electrical panel selection
- 7. Automation
- 8. Solving design problems

Troubleshooting, Case Studies, Question / Answer

Note: Advanced, detailed training for ETP & ZLD can be opted for only by this batch of attendees after the completion of STP training

More Details as Below

- **Timing:** 10 am to 6 pm daily
- **Free Group Support:** One Year
- **Study Material:** Will be provided
- **Certificate:** Soft copy after completion of the Training

LIMITED SEATS ONLY

Early Bird offer: if booked by 31st August 2025

Discounted Fee: Rs. 6900 (Tax 18% inclusive)

Group Booking for 2 or more: Additional Discount of Rs. 1000 per participant

Early Bird Discount of Rs. 3000

After the Early Bird Offer, the regular Fee will be: - Rs. 9900 (Tax 18% inclusive)

Online Booking Link: <https://rzp.io/l/nLMviNT7>

Google Pay No: 9825024371, **UPI:** 9825024371@kotak

NEFT/Bank Transfer:
