

Botanic Bytes - August

A digital floral artist at heart, I've traded city lights for country vistas. My art is a reflection of this journey - a "city mouse" finding fresh inspiration and new beauty in every petal of my rural transformation. Ready to bring this blooming vision to the world!

More Than Just Florals

While I often refer to myself as a digital floral artist, you'll find a variety of other styles in my shop. This is because my love for art and learning goes beyond just one style. If a pattern or design inspires me, I enjoy creating with it and sharing it with you. So, while florals are my first love, you can always expect a wide range of creative and unique designs.

July Pattern of the Month

Now available on all products across all my sites.

What Is A Printable?

You might have seen my **printable cards** and wondered what they are. A printable card is a digital file that you purchase and download instantly. This gives you the freedom to print it at home or at a local print shop as many times as you like. It's a quick and convenient way to get a beautiful card without waiting for shipping!

Setting New Priorities

I've closed my RedBubble store to focus on creating new designs that better fit my brand. This shift allows me to add **new items daily** to my Zazzle and Card Isle shops!
