

POINT PIKKER

EDUTech

POINT PIKKER | EDUTech is a comprehensive educational technology platform dedicated to providing targeted and effective training across various stages of a learner's journey. Our mission is to bridge the gap between academic knowledge and real-world application, equipping students, job seekers, and corporate professionals with the skills they need to succeed in a rapidly evolving technological landscape. We believe in lifelong learning and offer a diverse range of programs tailored to specific needs.

Services for School Students (10th and 12th Grade)

Our programs for high school students are designed to supplement traditional classroom learning and prepare them for future academic and career paths. We focus on building strong foundational skills and providing a clear understanding of complex subjects.

- **Subject-Specific Tutoring:** We offer specialized tutoring in key subjects like **Mathematics, Physics, Chemistry, and Computer Science**. Our expert instructors use innovative teaching methodologies and interactive tools to make learning engaging and effective.
 - **Entrance Exam Preparation:** We provide rigorous training for competitive entrance exams, including those for engineering and medical fields. This includes practice tests, detailed performance analysis, and personalized study plans.
 - **Career Guidance and Counseling:** We help students identify their interests and aptitudes, providing guidance on potential career paths and the educational steps required to achieve their goals.
-

Training for College Students (Mathematics and Computer Science)

For college students, our focus shifts to advanced concepts and practical application. We aim to deepen their understanding of core subjects and prepare them for professional roles in technology.

- **Advanced Mathematics:** We offer training in areas like **Calculus, Linear Algebra,**

Discrete Mathematics, and **Statistics**, which are essential for various fields of study and research.

- **Computer Science and Programming:** Our curriculum covers modern programming languages and frameworks, including **Python, Java, C++, and JavaScript**. We also provide hands-on training in areas like **Data Structures, Algorithms, Database Management**, and **Software Development Life Cycle (SDLC)**.
- **Real-World Projects:** Students work on projects that simulate real-world scenarios, allowing them to apply their theoretical knowledge and build a portfolio of work to showcase to potential employers.

Training for Job Seekers

Our job seeker programs are specifically designed to make candidates job-ready. We focus on in-demand skills and provide end-to-end support, from skill development to placement assistance.

- **Skill Development Bootcamps:** We offer intensive bootcamps in high-demand technologies such as **Data Science, Web Development, Cloud Computing (AWS, Azure), and Cybersecurity**.
- **Interview Preparation:** Our training includes mock interviews, resume building workshops, and tips on how to effectively present technical skills and project experience.
- **Career Counseling and Placement Support:** We connect job seekers with our network of industry partners and provide personalized support throughout the job application and interview process.

Corporate Training for Companies

POINT PIKKER | EDUTech also provides customized training solutions for businesses of all sizes, from startups to large corporations. Our corporate programs help companies upskill their employees and stay competitive in a fast-paced market.

- **Technology Upskilling:** We offer training on emerging technologies to keep teams ahead of the curve. This includes **AI/Machine Learning, DevOps, Blockchain**, and **IoT**.
- **Customized Training Modules:** We work with companies to create bespoke training programs that address their specific business needs and technological requirements.
- **Leadership and Management Training:** Our programs aren't just for technical skills; we also offer training for managers and leaders to enhance their skills in areas like **project management, team leadership, and strategic planning**.
