

Gökçen Sude Yenidünya

New graduate Software Engineer passionate about delivering impactful digital products through Product and Project Management. Gained hands-on experience in managing tasks, coordinating cross-functional teams, and delivering user-centric solutions during internships and academic projects. Knowledgeable in Agile/Scrum, documentation, testing processes, and requirement gathering. Proactive, highly motivated, and quick to learn new tools and methodologies to bridge the gap between business needs and technical execution.

EDUCATION

Software Engineering Bahcesehir University

10/2021 - 06/2025

GPA:2.92 /4.00

PERSONAL PROJECTS

Capstone Project: Laptop Recommendation

- Coordinated and led both the Software and Industrial Engineering teams using Agile methodology, and served as the main point of contact with the instructor on behalf of both groups. Designed and built a React-based user interface with component-based architecture, including interactive sliders and input forms for collecting user preferences on laptop features. Developed a dynamic results page displaying AI-driven and EDAS-based recommendations using visual cards. Integrated REST APIs with Axios, managed application state using React Hooks, and ensured a responsive, smooth user experience.
- Github repo link: <https://github.com/iamsadygov/capstonese>

Weather Dashboard

- This is a weather dashboard web application built using React that fetches live weather data from WeatherAPI. The dashboard displays the current weather, a 3-day forecast, and additional weather details such as humidity and wind speed. It also includes a language toggle feature for user convenience.
- Github repo link: https://github.com/sudeyenidunyya/Weather_Dashboard

Sketchpad

- This is a web-based SketchPad application built using React that allows users to draw freehand, create shapes, and customize settings.
- GitHub repo link: <https://github.com/sudeyenidunyya/Sketchpad>

WORK EXPERIENCE

Project Management Intern SCA Social

04/2025 - 05/2025

Achievements/Tasks

- Worked closely with mentors and peers to produce structured project inventories reflecting real-world business scenarios.
- Developed project deliverables using tools such as Google Docs, Canva, Microsoft Word and Excel.
- Enhanced skills in documentation, stakeholder communication, and digital project lifecycle management.

Frontend Developer Intern Etiya

07/2024 - 08/2024

Achievements/Tasks

- Collaborated on a team project, "**Milestone Manager**" aimed at managing project milestones and tracking progress.
- Used **Figma** for the UI design.
- Designed and implemented the frontend using **React**, ensuring smooth user interaction and responsiveness.
- Gained experience in **Git**, collaborating with other developers on the project using a version-controlled workflow.
- Used Trello for managing project progress effectively.
