KELTECH

GENERAL CONTRACTING

SOLE PROPRIETORSHIP L.L.C

Agenda

Introduction

Keltech General Contracting Sole Proprietorship LLC is a UAE-based **EPC contracting company** specializing in **oil and gas (brownfield) and greenfield projects**, as well as **ground engineering solutions**. With a strong focus on quality, safety, and timely project execution, we deliver comprehensive engineering, procurement, and construction services that meet the highest industry standards.

At **Keltech**, we take pride in our commitment to **innovation, professionalism, and teamwork**, which drive our success and have earned us recognition as a **trusted name in the UAE contracting industry**. Our diverse expertise enables us to undertake a wide range of projects across the **oil and gas, infrastructure, and industrial sectors**, providing efficient and reliable solutions tailored to client needs.

About us

Keltech General Contracting Sole Proprietorship LLC is a trusted name in the UAE construction industry, providing complete **EPC contracting solutions** in the **oil and gas (brown field) and green field projects**.

With over a decade of experience, our dedicated team of professionals is committed to delivering projects that uphold the highest standards of **quality, safety, and client satisfaction**.

At Keltech, we believe in building lasting partnerships and contributing to the **growth of the nation's infrastructure** through **excellence, innovation, and integrity**

VISION

To be a leading contracting company in the UAE, recognized for excellence, innovation, and reliability in every project we deliver. We aim to build a sustainable future through quality, safety, and continuous improvement.

MISSION

- Deliver high-quality, safe, and timely projects across civil, oil & gas, and facility management sectors.
- Foster long-term relationships through transparency and professionalism.
- Embrace innovation and modern technology to exceed client expectations.
- Contribute to the growth and development of the UAE's infrastructure.

Why choose us

Quality Assurance – We maintain the highest standards in every stage of construction and service delivery.

Experienced Team – Skilled engineers and professionals with extensive industry expertise.

On-Time Delivery – Commitment to completing every project within schedule and budget.

Comprehensive Services – From civil works to oil & gas and facility management — all under one roof.

Client Satisfaction – We prioritize transparency, trust, and long-term partnerships.

Safety & Compliance – Strict adherence to UAE safety regulations and quality standards.

Our services

Engineering & Design

Civil Works

Mechanical Works

Electrical works

1. Engineering & Design

Concept & Feasibility Studies – Site selection, cost estimation, HSE & risk assessment.

Engineering Design – Material selection, electrical & structural design, cost scheduling.

Detailed Engineering – Civil, mechanical, electrical, HVAC, corrosion & 3D CAD modeling.

Procurement & Vendor Support – Technical specs, vendor drawing reviews, QA/QC inspection.

Construction Support – Layouts, fabrication drawings, field engineering & clash resolution.

Testing & Commissioning Support – System integration, functional testing, as-built documentation.

Operation & Maintenance – O&M manuals, asset integrity, inspection plans.

2. Civil Works

Site Preparation & Earthworks – Land clearing, grading, excavation, compaction

Foundations & Substructures – Concrete foundations, piling, footings, pedestals

Structural Concrete & Steel Works – Buildings, retaining walls, platforms, rebar & formwork..

Fencing – Perimeter fencing, access gates.

Barriers - Safety barriers, retaining barriers, pipe line barrier.

Utilities & Infrastructure – Underground ducts, pipe culverts, encasements.

Building Construction & Finishing – Industrial buildings, MEP, painting, insulation, waterproofing.

Concrete Repair & Strengthening – Crack injection, surface coating, corrosion protection.

3. Mechanical Works

Structural Fabrication & Erection – Pipe supports, steel structures, welding

Equipment Installation – Static & rotary equipment (tanks, pumps, compressors), Valves alignment, and commissioning

Piping Works – Fabrication, welding (CS/SS/Alloy), hydrotesting, and pipeline installation.

Flange Management –Gasket fitting, torquing & tensioning.

4. Electrical Works

Power Distribution Systems : Transformer & substation installation, HV/LV cable laying & termination, switchgear, busbar, earthing, and lightning protection.

Electrical Equipment Installation : Motors, generators, UPS systems, HVAC wiring, and explosion-proof equipment.

Lighting Systems : Industrial, street, and emergency lighting with aviation warning lights.

Fire Alarm & Detection Systems : Addressable/conventional fire alarm wiring, detector installation, ESD integration, testing & commissioning.

Communication & Security Systems : Telephone, PA, intercom, CCTV, access control, fiber optic cabling.

Testing & Commissioning : HV testing, insulation resistance, loop checks, and load testing.

Our Projects

Keltech General Contracting has successfully executed a wide range of projects in EPC contracting, oil and gas (Brownfeild) and green field projects. Our commitment to quality, safety, and timely delivery has earned us the trust of major clients across the UAE.

Key Project Categories

- **Oil & Gas Infrastructure Projects** – Installation, maintenance, and commissioning of field facilities.
- **Electrical & Instrumentation Works** – Substation installations, lighting systems, and control panel setups.
- **Mechanical & Piping Projects** – Equipment installation, pipeline fabrication, and hydrotesting works.
- **Civil & Structural Projects** – Industrial buildings, foundations, roadworks, and drainage systems.
- **Facility Management Projects** – Preventive and corrective maintenance for industrial and commercial facilities.

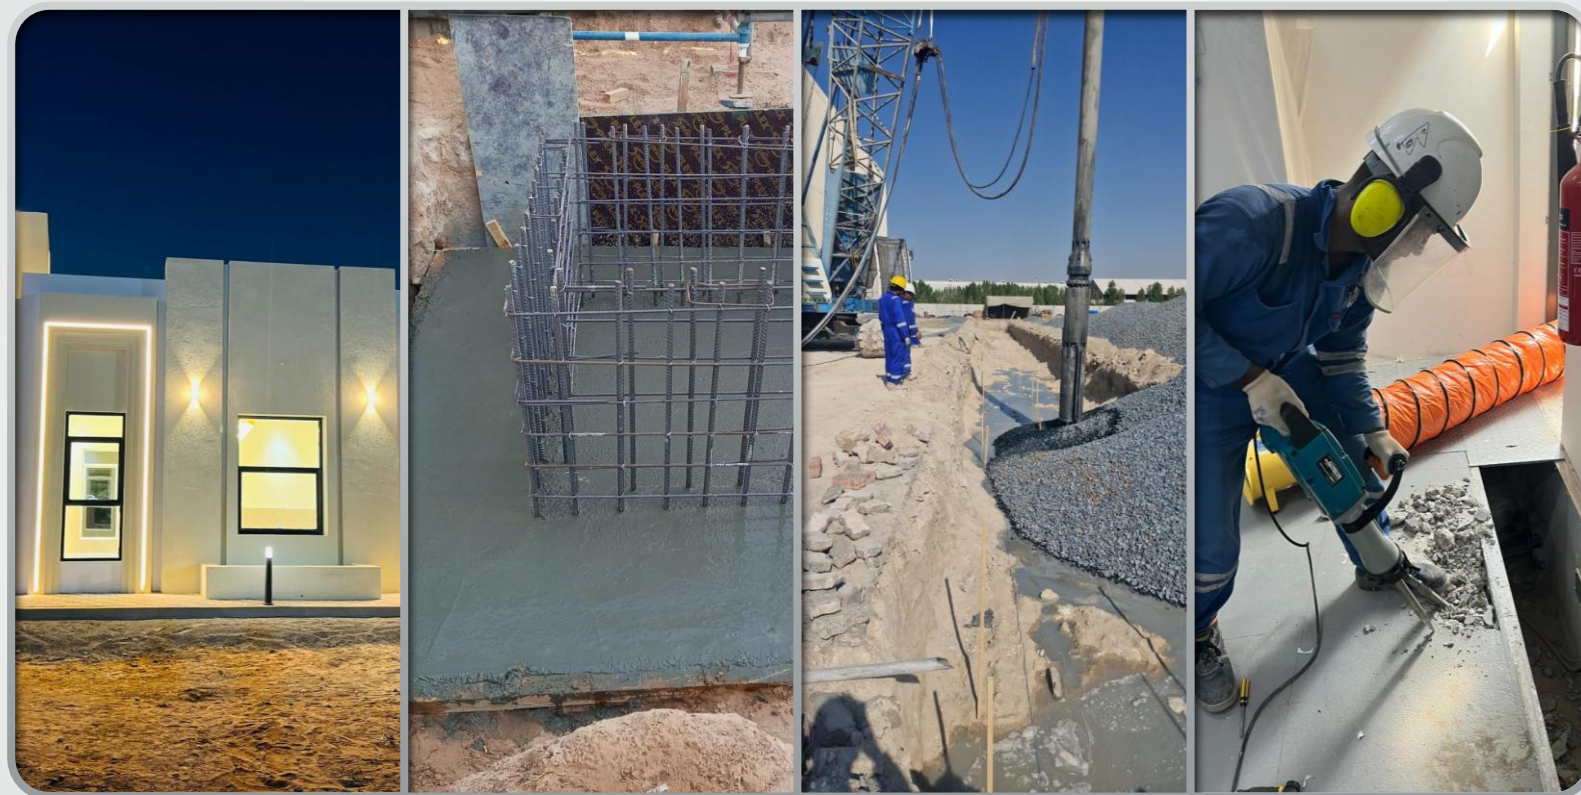

Project Highlights

- Completed numerous **onshore and industrial construction projects** for private and government clients.
- Delivered **turnkey solutions** from design to commissioning with strict adherence to HSE standards.
- Successfully partnered with **major oil & gas companies** for EPC and maintenance contracts.

Team Expert

ABDUL RAZAK KUNDIL - General Manager

Versatile professional with **33 years of experience** in SNOC , ADNOC , ENOC and other northern emirates Oil field and Petrochemical projects (Civil, E&I, Mechanical) across the UAE. Proven expertise in **planning, execution, manpower management, and quality assurance**, ensuring timely, safe, and cost-effective project delivery.

RIYAS HAMZA – Project Manager

Project Manager with **12 years of experience** in SNOC and ADNOC in Oil & Gas project execution. Skilled in **project planning, engineering coordination, construction management, and commissioning** for onshore/offshore projects. Strong in **budget control, team leadership, stakeholder engagement, and HSE compliance**, consistently delivering projects on time and within budget

Our skilled team

VISHAL RAJPUT - Planning Engineer

12 Years Experience Specialized in project scheduling, progress tracking, and Primavera P6 management.

ABDUL KALAM - Procurement Engineer

15 Years Experience Expert in vendor management, sourcing, and supply chain optimization.

MANSOOR - Construction Superintendent

15 Years Experience(13 yrs SNOG) Expert in piping fabrication, welding supervision, and structural inspection.

RIZWAN MAHMOOD - Civil Engineer (Abu Dhabi Municipality Approved)

7 Years Experience Expert in civil construction, infrastructure, and project management.

Our Skilled Team

- **MOHAMMED ASLAM - E&I Engineer**

- **10 Years Experience (8 yrs ADNOC, 2 yrs SNOG)**

Experienced in electrical & instrumentation design, commissioning, and QA/QC.

- **AFSAL - QC Engineer**

- **11 Years Experience** Specialist in NDT, QA/QC documentation, welding, and inspection.

- **ABDUL NAZER - HSE Engineer**

- **27 Years Experience** Expert in HSE management, risk mitigation, and compliance within Oil & Gas projects.

- **MUHAMMED BILAL - HSE Officer**

- **5+ Years Experience** Focused on safety implementation, hazard prevention, and workforce training.

Our skilled team

FATHIMATHUL ANASI - Civil Design Engineer

6 Years Experience

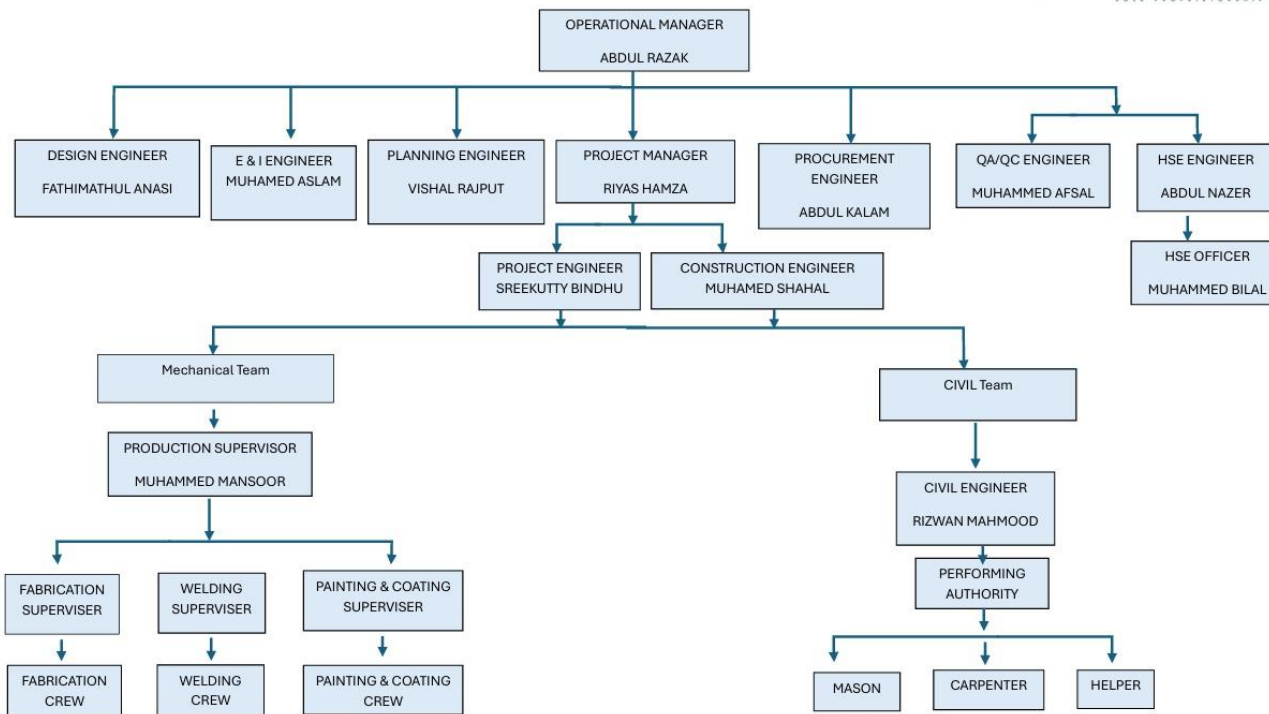

M.Tech in Structural Engineering; proficient in AutoCAD, STAAD.Pro, and design estimation.

SREEKUTTY - Project Engineer

(SNOC Experience) Experienced in construction supervision, coordination, and BOQ preparation.

MUHAMMED SHAHAL - Construction Engineer

3 Years Experience (SNOC) Proficient in site supervision, HSE compliance, and quality control.
