# About Our Company

PT Idea Cipta Senandika (ICSD) is a consulting company specialized in the social, cultural, and environmental services sector. PT Idea Cipta Senandika is committed to supporting sustainable development for national projects by providing impact study documents in accordance with national regulations and international standards.

Established in 2021, PT Idea Cipta Senandika (ICSD) is the advancement of *Perkumpulan ICSD* (Indonesia Centre for Sustainable Development) a foundation that has been established since 2002 and PT Insan Cipta Suluh Dunia that was established in 2016. These two entities were merged into PT Idea Cipta Senandika (ICSD).

PT Idea Cipta Senandika (ICSD) was formed by multidisciplinary experts to accelerate the process of sustainable development in Indonesia. PT Idea Cipta Senandika (ICSD) takes the role as an interconnected multi-stakeholder institution and focuses on institutional development in accordance with the concept of sustainable development for community development and environmental management. There are three elements of the sustainable development concept that PT Idea Cipta Senandika (ICSD) focuses on and supports by each stakeholder (business, government and civil society) namely, economic, social, and environmental sustainability.
