

TECHNICAL DATA SHEET

Product code: 8447 **Sector:** Motorcycle, Scooter & ATV

Issue No: 2

Issue Date: 01/11/24

Classic 4T 20w50

4 stroke 20w50 engine/transmission oil for use in classic motorcycle applications.

Description

A mineral oil for engines/transmissions (where applicable) requiring a 20w50 viscosity. The traditional technology used is ideal for the older air-cooled engines. The formulation includes ZDDP for maximum protection. Includes a constant high friction profile for wet clutch performance meeting the JASO MA2 specification.

Application

Use as received for engine lubrication of primarily pre 1980 vehicles which were developed on the multigrade oils of this era.

Performance Profile

API SG, SF, SE, SD
JASO MA2, JASO MA1, JASO MA

Features & Benefits

- Incorporates modern additive technology with period viscometrics to provide the optimum lubrication characteristics.
- The modern technology ensures an oil which will meet up to date specifications along with meeting the 'period' performance requirements.
- Suitable for higher mileage applications where oil consumption is a problem as high viscosity helps to reduce oil loss and leakage.

Typical Characteristics

Density @ 15°C, g/ml	0.890
Kinematic Viscosity @ 100°C, cSt	17.9
Flash Point, °C	>200
