

PRODUCT DATA SHEET

Product No	8073
Issue No.	1
Issue Date	08/08/2019

PRODUCT NAME:

DPF TURBO AND EXHAUST CLEANER

DESCRIPTION:

A one-shot diesel additive designed to clean diesel particulate filters (DPFs) which will ensure a cleaner and more efficient DPF.

Stop start driving and short trips mean lower exhaust gas temperatures meaning the regeneration of the DPF will not take place. This leads to blocking by trapped particulate matter in the DPF. This treatment is ideal for cars that regularly take shorter trips and want to prevent any problems between a vehicle's services.

APPLICATION:

Empty complete contents into fuel tank before filling to ensure thorough mixing.

One bottle treats 60 litres of fuel. DO NOT OVERTREAT. DO NOT MIX WITH OTHER DPF TREATMENTS.

Use only with other Millers Oils treatments.

Can be used more frequently if DPF blocking is a regular problem.

STORAGE INSTRUCTIONS:

Store at ambient temperature. Avoid direct sunlight.

Product efficacy within 24 months of date on bottle if stored according to manufacturer's instructions.

USER BENEFITS:

- Assists the removal of trapped soot particles by lowering the temperature of regeneration
- Cleaning the DPF provides optimum fuel economy, reduced emissions and restored engine power
