# What Will Be Achieved

Children will learn how music can make people feel different emotions and be able to create their own music.

They will learn music production and recording, instrument skills, music history, music theory and bandleading/choir skills.

# What Will Be Achieved

Within a year, the children will have a solid foundation in music and be able to create their own songs, using a variety of instruments as well as being able to lead others whilst playing music.

# How It Works

Lessons are divided in to 6 different units, 1 for each term.

For each year group, there will be 6 increasingly detailed units, building upon last years' learning and development.

|        |         |                                                          |
|--------|---------|----------------------------------------------------------|
| Term 1 | WRITE   | How to Understand Music With Basic Song-Writing Skills.  |
| Term 2 | HISTORY | The History Of Music/Music From Different World Cultures |
| Term 3 | PIANO   | Keyboard/Piano Skills.                                   |
| Term 4 | SING    | Singing And Performance Skills.                          |
| Term 5 | BAND    | Choir And Bandleading.                                   |
| Term 6 | RHYTHM  | Timing And Rhythm Skills.                                |

## How It Works

All of the courses will transition seamlessly in to each other across the year groups to give a 36 unit progression to develop an increasingly rich understanding of the process of enjoying and creating music.
