

## *Inspiration – Soft Pastels & Serenity*

Our Soft Pastels & Serenity moodboard is inspired by gentle blush pinks, airy lavender, and calming powder blues, balanced with light wood finishes and soft textiles. For care home environments, this palette creates a light, uplifting atmosphere that feels nurturing and optimistic. By weaving delicate tones with natural warmth, we design interiors that promote relaxation, enhance mood, and encourage residents to feel safe and cared for, while offering potential customers the assurance of thoughtfully curated spaces.
