E-MAGAZINE

First Issue , 24th October 2022

“AN ENDEAVOUR OF GLOBAL CITIZENS”

OUR MOTTO

IS TO BRING THE WORLD UNDER ONE
UMBRELLA AND GIVE WINGS TO THE
CREATIONS AND IMAGINATIONS
OF THE YOUNG CITIZENS.

FROM THE DESK OF THE PRESIDENT

I was elected as President of the prestigious organization "An Endeavour Of Global Citizen" on 1st January 2022 for the year 2022-2026. I would like to start by expressing my excitement at the dawn of such an inspiring project. An Endeavour Of Global Citizens whose motto is to bring all the citizens of the world under one umbrella and give a space to the youth of the world to collaborate, share and inspire one another by giving wings to their creation and imagination. I would like to thank the contributors, writers and numerous experts from their respective fields who have gratefully accepted our invitation to share their knowledge and skills inspite of their busy schedule to make this project a success.

In a world confined by borders, here is a place where distance dissipates into a collective network driven by innovation, curiosity and at the very core unity. One identity—An Endeavour Of Global Citizens.

Here I offer my thanks to all for their support, suggestion and active participation.

Dear readers, as this is our first edition so in order to encourage our young writers we are presenting the text without much editing.

Wish you all a happy reading.

FR. JAVIER ANTONIO CASTELLANOS, O.P.

Dear young people of the world!

This message comes from the depths of my heart and I want to invite you to look at the possibility of being citizens of the world from three aspects:

Look at the world with joy!

The world needs our smile, it needs a radiant soul that illuminates the families and institutions daily actions. Joy allows us to recognize that, just as the sun rises every day, our commitment must too, to take care of the planet and our own lives.

Embrace like brothers!

This is ending exclusion, indifference to human pain and forgetting those who suffer from war, injustice and hunger. Young people from all corners of the world, remain embraced to create a better world.

Don't be afraid to dream!

Dreaming means thinking about better horizons that can benefit all the population of the earth. Dreams build great realities. We can't stop dreaming.

These three things will give us the instruments to live better, in harmony with the planet and with all human beings and thus be able to feel like citizens of a world that needs care, love and dignifying people as made in the image and likeness of God.

Thank you, Alpha Magazine for allowing this message to be shared and reach the minds and hearts of the youngest. Many successes and blessings on this path!

ADAM A. JAMIU

Did You Know?

Did you know you were meant to be?

Life has its own unique and simple meaning and essence which is deeper. There is a purpose of our life. There is a simple message resonating- Live and let others also to live in peace. God created us with certain superficial differences but underneath the skin we are the same human race. HE created diversity ,so that life doesn't become boring and monotonous. We need to celebrate these differences and enjoy life to the fullest. As young global citizens, let life achieve its purpose through you.

Best wishes to this wonderful magazine 'The Alpha 'who has taken initiative with a unique mission.

DR.ARZU SOYSAL

Education, in a global sense, is a right since we are born. Every experience has a formative effect on the constitution of the human being, in the way one thinks, feels and acts. One of the most important contributions resides in what and how we learn through the improvement of educational processes, both in formal and informal settings. My best wishes to this Magazine-‘THE ALPHA’ ,who is giving an great opportunity to our writers, artists and photographers on a common global platform.

MARY SEBASTIAN

Dear friends

Affectionate greetings and God's blessings to all of you. It is a rare privilege to send a message for - A prestigious magazine - "The Alpha" The world is a family indeed. It was edifying to see the Mission and vision of this magazine, thorough which the editors are trying to imbibe the spirit of universal brotherhood in to your young minds and through you to the world family.

"Darkness cannot drive out darkness; only light can do that
Hate cannot drive out hate; only love can do that (Martin Luther King Jr)".

Once a teacher asked his students, "How can you determine the hour of dawn when the night is ending and the day begins, or how do you recognize the day from night"?

One of the students said, "When from a distance we can recognize a dog and a sheep".

No. said the teacher .Isn't it when a man distinguishes a tree (mango and an orange?)

No. Said the teacher. Please tell us said the students. It is then said the teacher, " When you can look in to the face of a human being and you have enough light in you to recognize him/her as your own brother / sister, then you are able to determine the hour." Answered the wise teacher. Until then it is night, and darkness is still with us.

"To replace the old paradigm of war with a new paradigm of waging peace, we must be pioneers who can push the boundaries of human understanding. We must be doctors who can cure the virus of violence. We must be soldiers of peace who can do more than preach to the choir. And we must be artists who will make the world our masterpiece." Said Paul Chappell.

Some of you might have read the poem "No Men are Foreign". It deals with the theme of universal brotherhood. Human beings all over the world have identical behaviour and the differences based on the manmade concepts of caste, creed, barriers etc. are unnatural. Every human being responds positively to love. Hence no human being is a foreigner or an outsider. It is the oneness of mankind underneath the superficial differences of colour, race, nationality and faith. The poem also deals with the supremacy of love, friendship and amity among all the people in this world.

You are the builders of this world. Are you challenged by what the world expect of you?

Yes You can. You are creative, talented, capable, courageous, strong and trustworthy. Your respect for one another, your belief in yourself and your trust in your parents, teachers and finally your willingness to give a lot of credits to God is all that is needed.

Dear children, you are the hope of this world. You are entrusted with a mighty responsibility of instilling brotherhood and social harmony in the minds of millions of our brothers and sisters. We dream of a peaceful world with human beings like you, who are capable of changing the world. When you will play your role as mature citizens, the dream of a peaceful world will be realized.

Wish you all the best and God's blessings.

MAHMOOD SULEIMANY

I am Assistant Professor Mahmood Suleimany. I have been teaching English at Farah university since 2017. At the same time, along with teaching career, I have been holding several administrative duties such as Head of English department, manager of Teaching Affairs and Database Office too. In October 2019, I was appointed as the Vice Chancellor of Students and Academic Affairs of this University, and most recently from December 2021 up to now , I have been appointed as Acting Chancellor of Farah University. My education is up to the master's degree in English language and literature from Isfahan University from Isfahan Province of Iran.

If I talk about my personal life, I have 3 daughters named Shamim (8 year old) who is in grade 2, Beheshtah (5 years old) and Houria (3 years old). My wife, Shaima, is a law graduate and a Principal of Girl's High School.

I was introduced to the magazine by an old friend, Mrs.Farida Begum. I was overwhelmed to see my friend taking initiative in such wonderful project-The Alpha Emagazine. The idea of globalizing and sharing children's thoughts, drawings and stories is great move. There is no word to describe such a movement. Children will be motivated to try more and improve their talents since their works will be published and circulated among 40 countries.

Best wishes!

PHILIPPE WALTER

Hello everyone!

I am delighted to be able to collaborate through this new publication " The Alpha" with such beautiful objectives and to speak to you in my articles about Switzerland, my adoptive country, about France, my native country and about all that interests and fascinates me.

My name is Philippe, I was born in 1958 in the South-West of France in the Basque Country, about which I will certainly speak to you in more detail in the future, and I have been living for 30 years in Thun, in the Bernese Oberland, in the centre of Switzerland.

Switzerland is definitely one of the most beautiful places to live. It is a relatively small country with lots of mountains and lakes and today has about 9 million inhabitants. Thun is the tenth largest city in Switzerland with a population of 40'000. It is a city with a long and beautiful history located at the western end of Lake Thun, near the Swiss capital Bern.

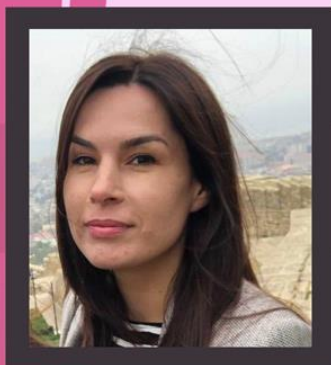

Thun is distinguished by its old town and its medieval castle and has many assets that allow for an active and interesting life, working in dynamic companies while offering the possibility of sporting leisure in the surrounding nature and cultural leisure in the neighbouring towns that are rich in history and distinctive features.

I find in Switzerland this mixture of calm, serenity and quick access to sports and leisure opportunities that makes life so entertaining and pleasant, whatever the time of year or the weather.

As I also love photography, here is one of my pictures of the lake of Thun for the pleasure of the eyes and which illustrates well the beauty of the region. I wish to contribute more to this magazine in near future.

Best wishes !!

Message

OKSANA RADZHABOVA, RUSSIA

I'm Oksana from Russia and I'm really happy to greet you here! Feeling grateful to join the creative and educational platform "The Alpha".

This would be a great experience for teachers and students to explore new interesting things about our world. We will learn what we have in common, and what is unique about each culture.

As a student I used to dream about uniting the youth of my republic and country, but due to the globalization we have the opportunity to join young people all over the world. And long time later I got the chance. So the journey begins here and all of you are welcomed to join!

It's a high time to start a new trip!

What do I do?

I've been an English teacher for 8 years working with diverse students of different ages and levels.

I majored in theoretical and applied linguistics (2006-2011) and in 2013 I got a master degree in 'Teaching English as a Second language and Cross-cultural Communication'.

2013-2015 – English teacher at "Republic Center of Distant Teaching for Children with Disabilities"

2013-2014 – English teacher at "Indigo School"

2016-2019 – English teacher and a head teacher at public schools

Since 2020 – English teacher at "Anglomania School"

BALANCE

I, Kamran Ahmed Riaz have been on this beautiful planet for 47 years. I believe that casts, regions are named just for the introduction purposes, otherwise we all are beautifully balanced to keep this planet alive.

The best definition of life in my view is

LIFE = BALANCE

If we maintain the balance in every thought, action, or affair of ours, we can make earth the best place to live. The moment this balance is disturbed, lives are disturbed. And for maintaining balance in any relation, we must note that Duties come before Rights. If we all are performing our duties well then rights are being served automatically.

Keep balancing!

Best regards,

Kamran Ahmed Riaz.

Message

ALASDAIR JOHN CALDER

**An introduction to Alpha Magazine by Alasdair John Calder
(Teacher Ali)
"An Endeavor of Global Citizens"**

Firstly, I'd like to extend a huge congratulations to all involved on the launch of 'The Alpha'.

Farida has been a helpful friend and mentor of mine since we met at an ESL conference in Edinburgh, Scotland in the summer of 2015.

I have been elected as the 'Cultural Ambassador' of this international magazine which hosts admirable ambassadors from 40 contributing countries.

I am currently an ESL teacher at an international school in Siem Reap, Cambodia. I have the pleasure of teaching Year 3 where I have 5 classes of 25 students. The Academic Year is nearly over which means we will have a public holiday for Pchum Ben – an ancient traditional Khmer boat racing festival which is held on the Siem Reap River.

As an ESL teacher of young learners, my philosophy of teaching is that all children are unique and should have the right to a safe, meaningful education. They should have a stimulating educational environment where they can grow physically, mentally, emotionally, and socially. I'm sure this philosophy is shared by many of our esteemed colleagues here at The Alpha.

I must admit that the Alpha Magazine "Motto" is relatable on this damp morning in Siem Reap, where rainy season is well under way.

"Bring the world under one umbrella and give wings
to the creations and imaginations of the young citizens."

I am originally from Scotland in the United Kingdom, but moved to Cambodia five years ago. I love living in Siem Reap as it is home to the world famous Angkor Wat. There is also an abundance of nature and wildlife as well as waterfalls and mountains.

Siem Reap is a charming and historic location to explore. It is easy to spend hours meandering down by the river that runs through the ancient capital, taking in the surroundings. It is a wonderful place to live and work. Each day is a positive learning curve and I would love to share it with you. When asked to contribute towards The Alpha, I could only offer my support to the vision as I know how much Farida cares about the future of young learners.

Ali Calder

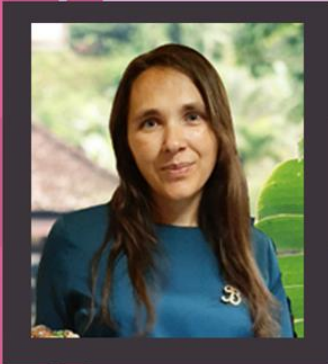

Message

NGU MALVIS ANDOH TEKWE

It's a blessing to be chosen to represent one's place of residence or birth. I am a Cameroonian but I had made UAE my home since 2016. I am an early years teachers, with passion of inspiring young learners to express themselves correctly in a world full of disorder in media. Touching young minds, through my representation in "The Alpha" magazine, will only be adding my voice to the many voices trying to improve our media space.

Message

AHMED SALEH ALBALOOSHI

Knowledge is a precious treasure, and those who do not appreciate it are like those who throw their lives in the path of hazarding their SUCCESS or FAIL. From experience, I could not purify my writing skill until I started writing extensively, whether through tweets, short posts, or articles. On top of that, I got my kids to follow the same approach, and now, thank God, they are excellent at creating sentences using the right words. The Almighty created us on this earth for a reason, and there is no better reason than spreading knowledge and science around us, and accordingly, we need to take a pledge not to store knowledge in our minds. I am already publishing courses and my experience through social media. Therefore, and from long experience, I advise everyone, especially our children, to devote a weekly article on one of the social media platforms, even if it is not at the required level. Repetition will make you distinguish.

Don't miss this opportunity, and remember, "The distinguished see the impossible as achievable, and the passive consider the difficult as impossible."

All the best.

Hello to all the “The Alpha” team and readers from Turkey, Çağatay Uluçay Secondary School. As a school, we attach importance to language education. Every year, within the framework of the legislation and

rules of the Turkish Ministry of National Education, we create Foreign Language Intensive classes in which English education is given intensified along with the compulsory courses. In these classes, we conduct trainings to help the students learn English efficiently. We think that doing interactive activities with students from different countries and other partners is very beneficial in terms of both language education and cultural sharing.

We have common values with Oman, which has a very old and ancient civilization. As a member of the Republic of Turkey, I am very pleased to cooperate with you. On behalf of our students, teachers and school, thank you very much for caring about us. I wish all students and teachers in Oman a healthy and happy day. I hope we will keep on collaborating.

Best regards

Headmaster of Çağatay Uluçay Secondary School

My Message to the World

My name is Sofronea Delia Cătălina and I teach English at a famous college from Galati, Romania, Colegiul Economic "Virgil Madgearu".

The world we live in today has more and more people getting born at the very moment with that we have a huge responsibility for our generation and to create a better world for the future generations to come.

My best wishes to this Magazine 'The Alpha' and hope it will give wings to our new generation .

Just one more message - Let it rain today. Let it all flow out. Cry your heart out and feel the melody of life. You can be perfectly imperfect!

STAY ORIGINAL AND BE THE BEST WHEREVER YOU GO!
