PROFILE & EXPERIENCE

I'm Juan Fernando Ponce, a 22-year-old DJ from Ecuador. Music has been my lifelong passion starting from my early years. House music, in particular, has captured my heart and soul. My mission goes beyond just playing/producing music; I aim to bring people together through the universal language of house music, creating a sense of unity and well-being. Mindfulness guides my journey, as I strive to establish a harmonious synergy between music and the soul, sharing the transformative power of sound with all who lend an ear.

ALCHEMYSTICA

healing our soul through intuitive expression & integration

Alchemystica is a music record label promoting mental health awareness and nature conservation. Every release conveys a powerful spiritual text taught by ancient cultures, a profound narrative of introspection that alchemizes positivity and transformation.

Alchemystica merges alchemy and mysticism into a concept that combines highly conscious music, mental health awareness, and sustainability to create a community of individuals who heal collectively. This project is more than an event organizer, music label, or learning platform; it fosters aid to artists who transmute their shadow into the birth of the expression of consciousness.

Our main goal is to create a mystical experience with a higher impact. To dance with a higher purpose, to transmute the lower vibrations into positive benefits for yourself, the community, and the planet. To heal through creative art, support, and introspection.
