

Your Dream of Sustainable Investment in the Caribbean

In Miches – El Seibo Province, Dominican Republic

**Realize Your Dream of Sustainable Investment in the Caribbean
Tropical Luxury, Intelligent Investment.**

¡Hola a todos! ¡Bienvenidos!

My name is **Ramón Peña Corsino**. It is my pleasure to greet you and welcome you to our dream, **Casablanca Ecolodge**, a place nestled in the unparalleled fashionable destination of **Miches, El Seibo Province, Dominican Republic**.

More than 30 years ago, we acquired these 9 hectares from Mr. Manuel Quintana, an Argentine businessman who, like us, fell in love with this paradise, which, within a perfect setting, offers us the majesty **of nature from every angle**. **In 1994, we built a small country villa for our family, which we are enjoying with PURE NATURE OR NATURE PURE. We invite you to join us.**

This privileged location on the edge of the road, **on the first line of mountains**, at km 3 of the Seibo-Miches road, at an altitude of between 60 and 130 meters above sea level, offers spectacular and **varied views for at least 15 km around**, framed by: **The Atlantic Ocean, Playa Esmeralda and its new hotels to the north and northeast. Montaña Redonda and the majestic Cordillera Oriental in the southeast, and closing in the west and northwest, with the Bay of Samaná, which is the perfect setting for this paradise where we are and where you will find yourself.**

See each sunrise with its beautiful sunrises, which, depending on its position in the day, changes the color of the vegetation and the sea. **The double rainbows** on rainy days, their sound in the mad rush towards La Villa, alone or together with the mist to wrap us up. **The clouds sliding like curtains** covering the sun, which teases us by reflecting its powerful glow from the sides. **The moon rising** during the day, wanting to compete with the sun. **Perceiving the joy in the chirping of different birds and seeing the dancing of the Lauras or Auras (American Red-headed Vultures)** as they soar without moving their wings in the wind. As a culmination and closing the day, **the beauty of twilight with its different colors, the softness of moonlit nights as the moon rises and glistens on the sea**, mingling with the glow of the lights of the city of Miches and hotels in Playa Esmeralda, the city of Samaná, or a boat sailing in the distance on the Atlantic, or any object conducive to speculation and taking out your spyglass.

As external points to visit on relaxing excursions, we have: **La Media Luna**, a natural pool in the middle of the sea; **Montaña Redonda**, where you can fly in body and imagination; **Samaná Bay** to enjoy the presence of humpback whales, which visit us every year to socialize, mate, and give birth, declared a **"Mammal Sanctuary"** in 1986; Enjoy **the Miches-Pedro Sánchez-Seibo scenic corridor** on mountain adventures, hiking, and bird watching for nature lovers in the natural and unspoiled areas of the **Eastern Mountain Range**.

Caves, streams, and rivers, as well as our history, culture, and traditions; the Battle of Palo Hincado and El Cabao, bullfights (unique in the country), and the music of the Atabales in the province of El Seibo, the mother of all the eastern provinces.

For all these reasons, we are particularly happy to share this corner of paradise with you and offer you the opportunity to make your own dream come true here at **Casablanca Ecolodge.**

May the beauty and authenticity of this idyllic place move you and make you fall in love. We look forward to seeing you.

Yours sincerely

Ramón Peña Corsino.
