

Working with the state, utility, and public buildings (such as schools and libraries) to create lasting and impactful change.

No Up Front Cost

ZEN manages the grant, financing and construction with the intent to transfer ownership to the organization long-term.

Extra Funding

Energy savings leads to extra funding to support other, much needed programs at the organization's choice.

Future-Proof

Solar + future battery storage possibilities can help communities become more adaptable against climate change, natural disasters and unexpected changes.

HOW DOES IT WORK?

ZEN / PRWA

Wins the incentive, develops & finances solar project. ZEN serves as the owner and asset manager.

Years 1 - 10

Building uses energy savings for community programs.

BENEFITS

Years 11 - 30

Energy savings can be put toward anything of the organization's choosing, including salaries.
