# WE ARE DIFFERENT

We combine translators, certified Indonesian linguists and Subject Matter Experts in every translation project we handle.

Make  
Workflow  
Easy

With collaboration between linguists and experts in various disciplines, we offer an efficient and high-quality translation process.

# HOW IMPORTANT IS A CERTIFIED INDONESIAN LINGUIST?

A certified Indonesian linguist can ensure that the use of equivalent terms in a translation is "appropriate" and that the writing rules have used good and correct Indonesian grammar.

In fact, many translators in Indonesia today still do not have a certificate of Indonesian Language Proficiency Test (UKBI), which is a measure of proficiency in the Indonesian language properly and correctly.
