

CEYWATER

COMPANY PROFILE

OUR VISION

To be the foremost engineering
consultancy service provider in
the region.

OUR MISSION

To provide sustainable engineering consultancy solutions, through an integrated range of services, by combining highly skilled teams and modern technology, to make way for a better tomorrow, whilst staying true to our core values of caring for people and environment.

WHO ARE WE

Established in 1983, Ceywater Consultants (Pvt) Ltd, is a leading consultancy firm with experience and expertise spanning over three decades in engineering consultancy services in Sri Lanka. The company's services focus on the sustainable management of water and sanitation and is renowned as a dominant water and wastewater works consultancy company in the region, a position achieved through the successful execution and delivery of key landmark projects across the island.

Ceywater is proud to have undertaken many prestigious projects for key local governmental authorities and prime international contractors, funded by leading global financial institutions such as the Asian Development Bank (ADB), World Bank (WB), United States Agency for International Development (USAID), German Financial Cooperation (KFW), Japan Bank for International Cooperation (JBIC) and Japan International Cooperation Agency (JICA). Ceywater has the capability of undertaking large, multi-faceted projects, which adhere to FIDIC conditions as well as ADB, WB, national standard procurement guidelines. The firm operates with more than 130 professionals and support personnel at its headquarters in Colombo and operational offices island wide.

Leveraging on our extensive experience and strong reputation in engineering consultancy, we are now extending our reach into Consultancy Support for EPC (Engineering, Procurement and Construction) contractors, technology and project financing. Through our fully integrated offering we deliver a single-source solution to our valued clients.

OUR VALUES

INTEGRITY

We encourage a culture where all employees act with honesty and have respect for each other. We strive to do the right thing always and act with loyalty towards the company, clients, society and key stakeholders of our business

INNOVATION

We strive to think differently, looking for new ways of thinking and working, embracing technology and ever evolving to be the best in what we do and offer

EMPOWERMENT

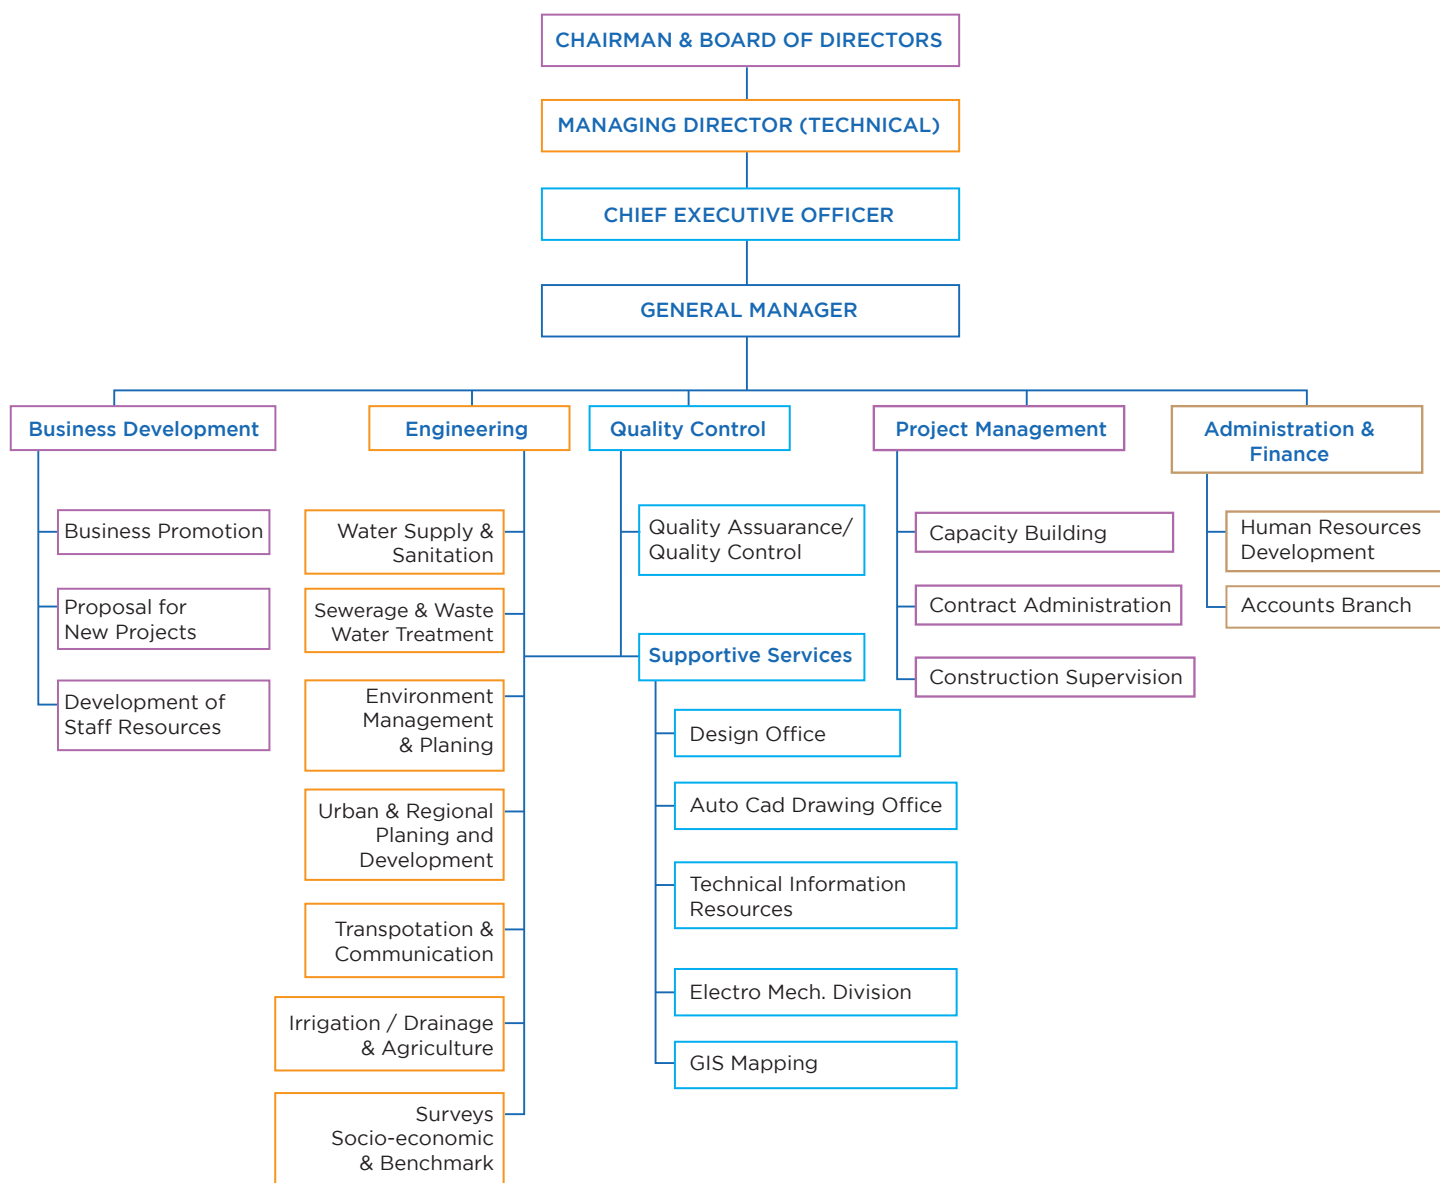

We empower our employees to take initiative and facilitate a culture to lead and make decisions. We encourage diversity, embracing our differences and working in unity with our colleagues and with the communities and stakeholders we work with

ENVIRONMENTALLY CONSCIOUS

We care about people, our planet and our natural resources. We look for ways to conduct our business in a sustainable and nature sensitive manner

ORGANIZATION STRUCTURE

OUR TEAM

With over 30 years of experience in providing excellence in customer delivery, we have developed a team of in-house consultants with the right blend of talent, knowledge and service. While our people come from a range of engineering disciplines, including environmental engineers, dams & irrigation engineers, highway engineers, and bridge & structural engineers, they share a common passion for continuous innovation. Services of other Professionals including Urban Planners, Quantity Surveyors, Hydrologists, Geologists, Economic/ Financial Analysts, Sociologists, Environmental Specialists, Procurement Specialists, Lawyers, Institutional Development Specialists, Software Developers, Mapping Experts and other Specialists of every discipline are readily available to provide consultancy services to our clients.

OUR PARTNERS

OUR EXPERTISE

Our extensive involvement in competitive bidding processes for acquiring projects, coupled with our understanding of local context, has made us adept at finding solutions to challenges across the project life cycle. We are conversant in FIDIC conditions of contract, ICTAD conditions of Sri Lanka and other international conditions of contracts. We have a proven track record of successfully completing projects from end to end across a range of sectors:

- Water supply including extraction, treatment, storage and distribution.
- Sewerage schemes including sewage treatment.
- Rural water supply and sanitation.
- Environmental engineering.
- Storm water drainage systems.
- Water resource development.
- Irrigation schemes.
- Ground water projects.
- Solid waste management.
- Urban planning and development.
- Traffic engineering.
- Roads, bridges, highways and railways.
- Electrical engineering.
- Mechanical engineering.

We can help clients with:

- Consultancy Support for EPC Contractors.
- Technology transfer and Capacity Building.
- Project Financing.

QUALITY CERTIFICATION

Certificate LK18/05646

The management system of

SUMMARY OF KEY PROJECTS

WATER SUPPLY & SEWERAGE SECTOR

i) Secondary Towns and Rural Community Based Water Supply and Sanitation Project - Sri Lanka: Consultancy Services for Design and Construction Supervisions - Package B

(May 2003-December 2013)
Project Cost: US\$ 263.3 Million

Design and Construction Supervision of Water Supply & Sanitation Projects to serve secondary towns of Batticaloa, Hambantota, Malara, Muttur and Polonnaruwa, and Rural areas of Anuradhapura and Polonnaruwa District to deliver safe water to about 969,000 people and provide sanitation to 171,500 people and provide sanitation to 171,500 people.

ii) Kandy City Wastewater Management Project: Consultancy Services for Construction Supervision

(Dec. 2011 - Feb. 2018)
Project Cost: US\$ 162 Million

The project provides consultancy services for implementing Design review and Construction Supervision of Sewerage Treatment Plant, Main Pumps Station and Pumping Main and Collection Systems, and Construction of house connection and provision of sanitary facilities for low income areas.

RURAL WATER SUPPLY SECTOR

i) Second Community Water Supply & Sanitation Project, Sri Lanka -Technical Assistance for Project Implementation Support.

(Nov. 2003 - June 2010)
Project Cost: US\$ 50 Million

The World Bank assisted 2nd CWSSP was targeted to provide water supply and sanitation facilities to rural communities in approximately 1,000 Grama Niladari Divisions in North Western, Central, North and East Provincial Council (PC) areas. The project introduced a highly decentralized approach for service delivery.

(ii) Eastern Province Water Supply Development Project (Rural Water Component)

(Oct. 2010 - March 2013)
Project Cost: US\$ 9.5 Million

This project was aimed at improving water supply to remote villages where there is a severe demand for drinking water. The project selected 28 such target villages suffering from water shortage, to undertake investigations and provision of pipe borne water supply to benefit 10,000 beneficiaries in the 3 districts.

ROADS AND HIGHWAYS SECTOR

(i) Feasibility Study for Improvements to Pelawatha - Kankotayawatte - Thiniyawala - Morawaka Road (0-24 km) and Ambalangoda-Elpitiya - Pitigala Road (16-29 km)

(Aug. 2007 - May 2008)

Work involved preparation of a Feasibility and Environmental Study for the proposed Pelawatha - Morawaka Road (B-363) and Ambalangoda - Elpitiya Road (B-014), which included an Engineering Study, Social Assessment, Resettlement Plans, an Environmental Study and an Economic Evaluation of the Two Roads.

(ii) Consultancy Service for Construction of Roads, Land Development & Other Infrastructure Block C Area, Horana Export Processing Zone.

(Aug.1999 - Feb. 2000)

Detailed Design Service for construction of Roads and other infrastructure in Block C area, Horana Export Processing Zone at Perth Estate, Horana.

ENVIRONMENTAL ASSESSMENT

Technical Assistance for Preparation of the Greater Colombo- Wastewater Project (GCWP - ADBPPT (Nov. 2006 - June 2007))

The PPTA - Greater Colombo Waste Water Project was broadly aimed at improving management of sewerage assets and reducing pollution. Scope of the work involved improving access to sanitation in low income areas, improving system performance through rehabilitation, and strengthening finance and asset management of the new sewerage infrastructure, together with the preparation of a sound financial strategy which included cost recovery for the waste water sector.

(ii) Consultancy Services for the Feasibility Study of the Ruhunupura Water Supply Development Project. (July 2007 - Feb 2010)

Environmental Assessment of the Ruhunupura Water Supply Development Project was undertaken among other activities in the Feasibility Study.

INSTITUTIONAL DEVELOPMENT & TRAINING

(i) ADB assisted Third Water Supply and Sanitation Project "Package C" in association with Statkraft Groner, Norway.

(Aug. - Nov. 2000)

Assisted in the provision of Institutional Development including Training and Capacity Building of NWSDB, Local Authorities, Pradeshiya Sabhas and NGO to facilitate implementation of ADB funded 3rd Water Supply & Sanitation Project covering Hambantota, Kegalle, Anuradhapura, Kalutara, Puttlam and Monaragala districts.

- Project Management
- Carry out Water Resources Management Studies on Walawe Ganga, Kirindi Oya, Gal Oya and Malwatu Oya.
- Ground Water Studies at Anuradhapura and Puttalam Districts.
- Training & capacity Building of Institutions such as NWSDB, LAA, PS and NGO. (Dec. 2005)
- Water Loss Reduction in Greater Colombo Area.
- Greater Colombo Mapping

(ii) Technical Assistance for the Sri Lanka Water Supply Capacity Building Project.

(Oct. 2007 - Feb. 2008)

The project supported the CWSSP II program and provided participating communities with the knowledge and skills to sustain constructed facilities and enhance living conditions, while providing employment opportunities to those affected by the Tsunami

iii) Special Assistance for Project Implementation Water Sector Development Project in Sri Lanka

(May 2006 - Dec. 2006)

Provided institutional support to NWS&DB by assisting in

- Implementation of improvements to management and administration systems through an update of the corporate plan.
- Development of a PR & communication strategy.
- Development of a business plan for RSC.
- Review of NRW projects and strategies.
