# About Core Pack Services

Core Services are designed for businesses, professionals, and event organisers who need more than a basic setup. This tier offers custom design, better structure, and room to grow without the complexity of full-scale enterprise work.

If you want your website, event, or packaging to feel professional, intentional, and cohesive across touchpoints, Core is the right place to start.

This is our most recommended tier for long-term results.

# What it is best for

- ✓ Growing businesses
- ✓ Service professionals
- ✓ Small to medium brands
- ✓ Event planners and organisers
- ✓ Businesses needing credibility and clarity
- ✓ Clients who want custom design without overbuilding
