Failure to Track Progress

SOLUTION

Regularly monitor project milestones and KPIs to ensure the project is on track.

Early detection of delays allows for timely intervention and course correction.

Ignoring the Importance of Training

SOLUTION

Invest in training your team to ensure they have the skills needed to complete the project successfully.

Continuous learning improves both efficiency and job satisfaction.

Not Using Prototypes Early Enough

SOLUTION

Develop and test prototypes early in the project to identify design flaws or potential issues.

Early prototyping saves time and resources by avoiding major changes later.
