What is Kompanio?

N.K.S.W. Kompanio is the umbrella association for the Faculty of Social Sciences at Radboud. We work closely together with the other study associations of the faculty, other umbrella's and employees of the faculty to connect the students.

To connect students we organise a variety of activities. We organise activities such as S-Cape, Faculty Activities, Kompanio Get Togethers (aka those with the food) and the Kompanio Future Fair for all students of the Faculty. Next to that we have the buddy project where we during both semesters organise activities for exchange students, ranging from low-key dinners to beer tasting or a tour. And last but not least we organise activities for board members, ranging from game nights to the board weekend.

To make sure things run smoothly we meet with countless amount of people, together, committees, the assessor, faculty employees and the study associations. We take care of the common ground and are involved in things happening within the faculty!

Why a board year?

A board year gives you the chance to learn countless new skills and enhance others. It is a time where you get to closely work together with a group of motivated students. You get to do a lot of fun and interesting things, both formally and informally. There are a lot of exciting events to attend, new things to learn about how the university and faculty work and changes you can make. You can leave your mark on the university for years to come!

You learn to, work together, be critical, make important decisions, write formally, organise events.

You learn how to take care of an organisation, as it will be yours to take care of for a year!

It is a once in a lifetime opportunity, that can only be experienced during student life. So are you interested? It is now or never!

Chair

Lotte

As chair you lead the board and the association. You lead the meetings of the board but also the ones with other associations, such as GMA's. Here you make sure everyone is heard and that decisions and conclusions are reached. You are often the first contact point and are the face of the association.

Within the board you make sure that tasks are being done, your policy is being followed and that everyone is doing alright. You have one on one talks to discuss the personal growth of your board members. You try and make the year as smooth sailing as possible!

Convenient qualities:

- Empathetic
- Flexible
- Being good at making decisions
- Being good at having overview

What i like most about my function is that I have very close contact with everyone within our board, I get to be involved in everyone's business without having to execute every single thing myself. I like that I get to know everything.

Secretary

Kerttu

As secretary you are the person in charge of the mail, social media and website. You get to make a lot of content and write quite a bit. You make sure that brought out pieces look well through formatting and often the one to make the final changes. You make promotion and are in charge of the calendar. You also make sure important information does not get forgotten, you do this through making minutes during meetings. This being board meetings, GMA's and FOSS meetings.

Convenient qualities:

- Creative
- Good writer
- Precise
- Efficient

I am fond of my function. I appreciate the freedom in creative decisions and that I can use as much - or as little - creative brainpower as I like. I enjoy updating the website, as it makes me feel like a little tech wizard (spoken by someone who has a touch of computer illiteracy). I get enjoyment out of formatting and a kick out of centering text and other elements. As secretary you are the one to receive most information first, and that is very exciting.

Treasurer

Hanna

As treasurer you are the keeper of the finances. You make sure all parties involved pay and are paid. You send invoices, take care of bookkeeping and take care of all payments. You create a budget and keep track of how this is going. You are the one that knows what is happening financially and with help of the others make decisions on where to spend money.

Convenient qualities:

- Precise
- Independent
- Disciplined
- Being good at keeping overview

What I like most about my function is that I know everything that is going on from behind the scenes. Everything at some point must go through me, because of this I hear from every other function what they are doing. I have even the power to say no (of course I do not do this, but I have the power hihi). What I also like of my function is that I am able to do it (almost) everywhere and at any time I want. This gives me a lot of freedom and the ability to do it even from the comforts of my own bed. My function can be described as mind-numbing, but I love that it is very peaceful and relaxing to do.

Chief of Formal Affairs

Julia

As Chief of Formal Affairs you are the main contact person for everyone from the university. You are in contact with employees that can take care of things the association needs, such as housing, communications and career office. You also regularly meet with the assessor. Next to university related things you organise the Formal Faculty activity and organise the Buddy Project with the Chief of Activities. One of your biggest tasks is organising the Kompanio Future Fair together with the Future Fair committee. You have a lot of different meetings to attend and people you are in contact with.

Convenient qualities

- Social
- Flexible
- Professional
- Critical

I love being helpful and running around whenever is needed. This way I also know all the tea from within the faculty hihi. Next to that, I work very closely with Beertje, our Chief of Activities, as we organize the Buddy Project together. Our meetings are mostly yap sessions and we help each other with their own activities as well.

Chief of Activities

Beertje

As Chief of Activities you, together with others, organise a lot of activities. You are in charge or organising activities for board members, the Informal Faculty activity, Kompanio Get Togethers, and the board weekend. Together with your S-cape committee you organise amazing S-cape editions. And with the Chief of Formal Affairs you organise the Buddy Project. No worries about having to do it alone. For the financial part you work together with the treasurer and there is a lot of discussing and brainstorming with the entire board. Next to the very many activities you are also in charge of the contact with external parties, such as sponsors. Making sure to get contracts with nice deals.

Convenient qualities:

- Social
- Creative
- Good host
- Assertive

What I like most about my function is that it's very diverse and social! I get to meet lots of new people during my meetings with sponsors, committee meetings and all of the activities!

Why Kompanio?

Why should you choose to do a board year at Kompanio? Because it is the most fun association of course! At Kompanio you get the chance to work together with a lot of fun people. You get to assist the study associations and have close bonds with the board members. There is a lot of variety as you work together with people from the entire faculty. This results in even more creative new ideas. Because it is with the entire faculty, it is a great way to get to know new people! Next to that you get the opportunity to learn a lot more about the faculty and how it works, optimizing your uni ways by knowing who to go to for what. Leave your bubble and come together with the people of social sciences!
