

# Election Fraud in Kootenai County

## Part I : Overview

- North Idaho has **SERIOUS PROBLEMS** with Election Fraud
  - **There is evidence the NIC Trustee Election was Stolen.**
  - **It appears that MACHINE FRAUD was involved.**

# KC Election Fraud—Machine Fraud

- Machine Fraud MUCH WORSE than Absentee Fraud.
  - System in place for year, coordinated, nearly undetectable
  - KCRCC leaders, County Commissioners won't touch it.
  - **Opens a Gigantic Can of Worms**—Worse than you think!!!

- MAGA Conservatives need to Wake Up to E-Fraud
  - RINO take-over of **NIC, Kootenai Health, KCRCC**
  - **CITY Governments** lost to RINOs, MAGA losing Ground!

# My Involvement with E-Fraud

- Wrote Articles and emails detailing problems with election
- Informed KC BOCC, Clerk, KCRCC leaders of anomalies.
- Attended the KC BOCC Canvassing Board Meeting, 11-14-24
  - Asked Commissioners to investigate/delay certification
  - No one addressed issues or acknowledged problems.

Video of BOCC Canvass, at: <https://www.youtube.com/watch?v=6pEZY8t4hNE>

# E-Fraud and Election Workers

- E-fraud can happen under the nose of E-workers
  - Systemic E-fraud is not under their control.
- Local Election Officials cannot be responsible for E-Fraud.
  - At worst, they **fail to recognize signs/sound alarms.**
- Tina Peters was Mesa County Clerk
  - **Jailed for exposing Fraud, not committing it.**

# Election Fraud is a National Disaster

- In 2002 Congress passed **HAVA—Help America Vote Act**
  - Intended to Replace Mechanical Voting Machines with Electronics.
  - Electronic tabulation is MUCH easier to rig than Mechanical
  - **Provides for centralized, systematic Election Fraud.**
- **Election Assistance Commission** was created by HAVA
  - Run by appointed Officials—Extremely politicized!!!
  - Certifies Polling machines, Sets Standards for “Election Security”.
  - Dispersed 1.5 Billion to states to acquire Electronic polling devices.
  - **MANY measures taken to “Secure Elections” enable FRAUD**

[Election Assistance Commission - Wikipedia](#)

# Many Types of Election Fraud

- Many types of Fraud, often combined, inter-coordinated
  - **Tabulator Fraud**—**tabulators falsify counts, scanned images**
  - **Voter Roll Fraud**—Manipulation of Registered Voter lists
  - **Mail-in Ballot Fraud**—Manipulation of Absentee Votes
  - **Poll Book Fraud**—False polling data—who actually voted.
  - **Voting Machine Fraud**—E-Voting machines flip votes

ELECTRONIC POLL BOOK

SCANNER/TABULATOR

ELECTRONIC VOTING

# Election Technology Corporations

- **SMARTmatic**—founded by allies of Hugo Chavez, acquired U.S. election tech.
- **Dominion**—Proven to tamper with ballot images in Mesa County.
- **ERIC**—Electronic Registration Info Center—provides voter registration to Democrat Activists.
- **ESS**—**Electronic Systems and Software**—Used by Kootenai County
- **Hart Intercivic**—Certified, along with ESS for use in Idaho.
- **TED/TENEX**—Electronic Poll book software, connected to Idaho DMV.
- **ACET**—Trade association founded in 2022 to advance election technology.

Proof Dominion modifies ballot images: [Fingerprints of Fraud - The Movie - Chapter 2 - The Machines](https://rumble.com/v4lwd03-fingerprints-of-fraud-the-movie-the-machines.html) <https://rumble.com/v4lwd03-fingerprints-of-fraud-the-movie-the-machines.html>

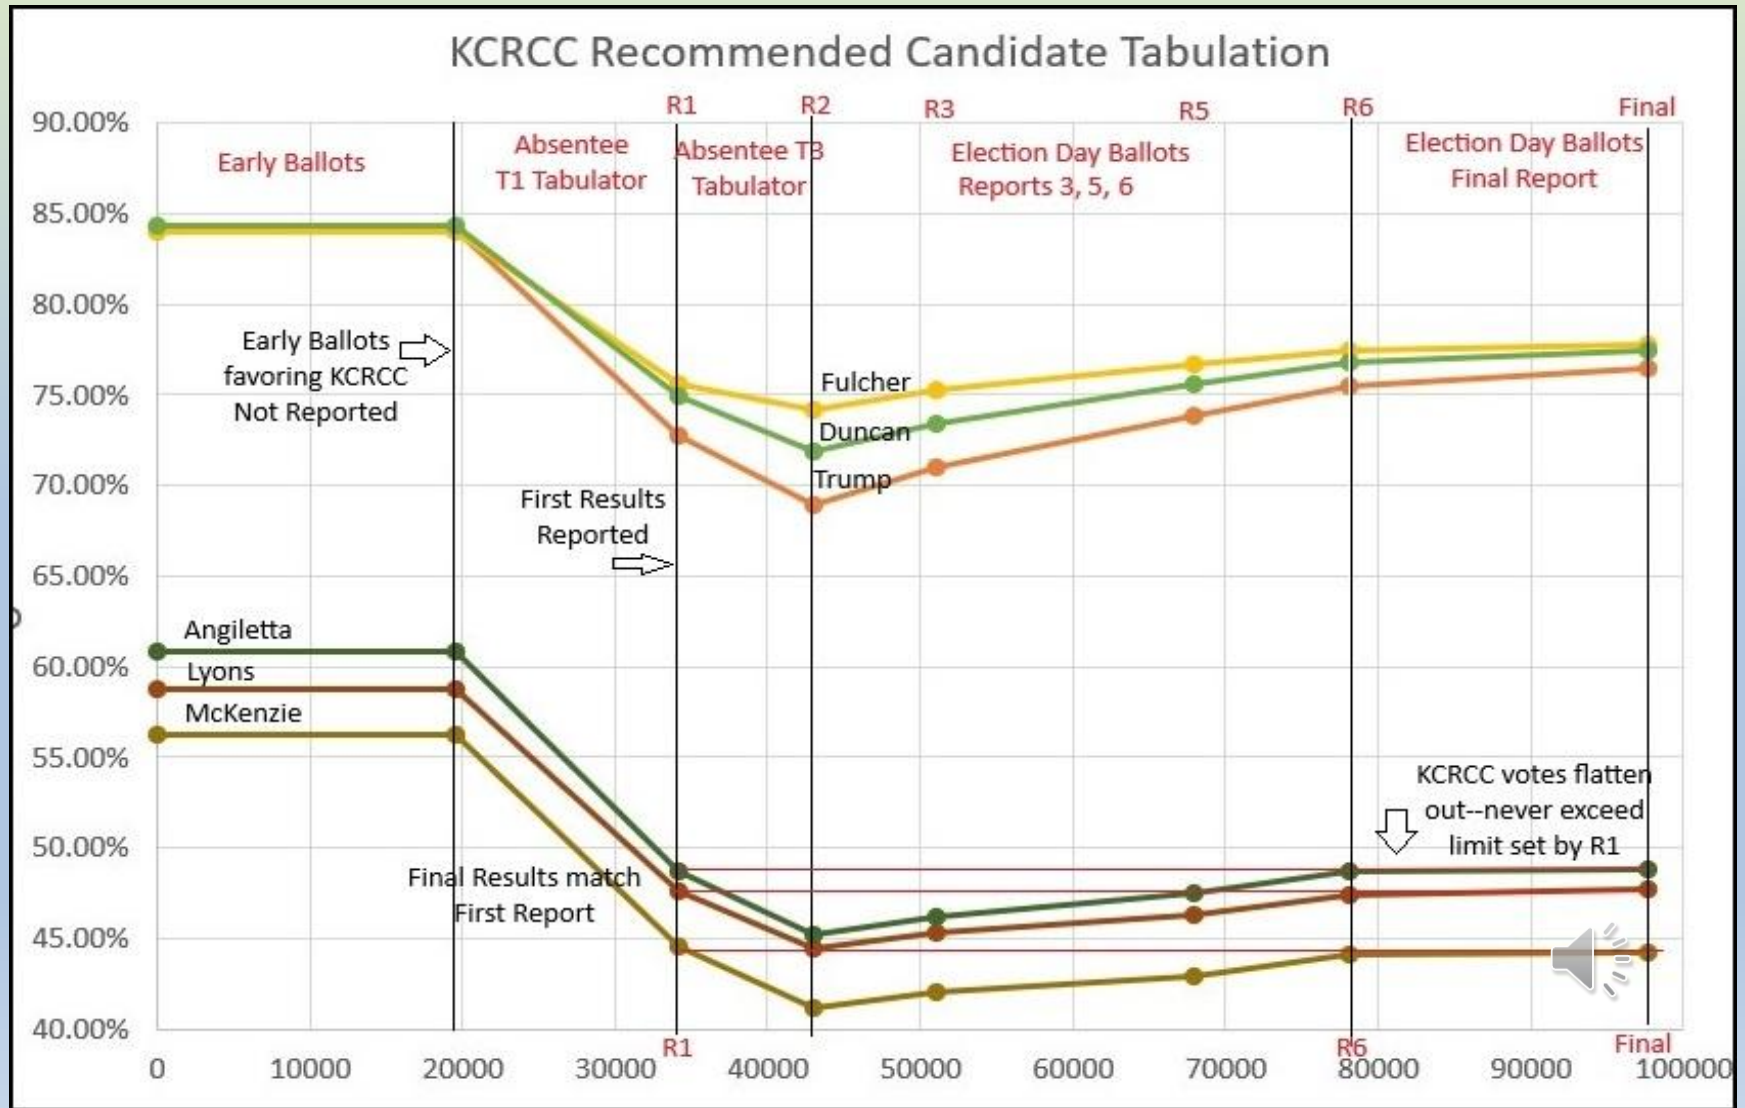

Testimony of Software Engineer who wrote a program to flip votes:

# Evidence—Statistical Anomalies

- First Reports too closely match Final Outcome
- Improbable difference between Early & E-day Results

# Shock—Initial Post Matched Final Post

- **Hair on Fire Moment!!**      **This cannot happen.**
- All three races match EXACTLY.      No others come close.

Trump  
(3.7%)

Fulcher  
(3.3%)

Duncan  
(2.5%)

Norris  
(0.5%)

# Early vs. Election Day Bias

- Very Improbable difference between Early & E-day Results
- “Early” Voters were large percent (25%) of all In-Person Voters.
- Note that CDA had a much HIGHER percentage of Early voters than more “conservative” districts.

NIC Trustee Position #3 Election Data, Nov 5th 2024						
	DIST 2	DIST 3	Dist 4	Dist 5	Total	
<b>Durbin Early</b>	439	2025	2387	1647	6498	
<b>Lyons Early (KCRCC)</b>	866	3199	2507	2682	9254	
Early Voter % of ballots	15.9%	19.1%	23.5%	18.6%	19.8%	
Lyons Share of Early Voters	66.4%	61.2%	51.2%	62.0%	58.7%	
Lyons won early voting HANDILY in every District, including CDA (Dist 4)						↑
<b>Durbin E-Day</b>	2260	7359	5685	6412	21716	
<b>Lyons E-Day (KCRCC)</b>	2715	7929	4265	7193	22102	
Election-Day Voter % of ballots	60.7%	55.8%	47.8%	58.3%	54.9%	
Lyons Share of E-Day	54.6%	51.9%	42.9%	52.9%	50.4%	
Lyons won in-person E-Day voting by just over 50%.						↑

# Evidence of E-Fraud—ESS Tabulators

- ✦ – **ESS Manager flew in from Omaha to run tabulators**
  - Proprietary software, thumb drives, operating system
  - ESS produces logs files/documentation exempt from FOIA.
  - No records of Software Updates, Maintenance.
  - ESS owned by private Equity—not accountable.

# Why Not Request a Recount?

- **Access to Physical Ballots is strictly controlled**
  - Hand recounts are very limited, no access to physical ballots.
  - No mechanism to detect ballot tampering.
  - Only one observer, only one race is counted.
- **Forensic Audit, not Recount**
  - Citizens must file a lawsuit to access physical ballots

# Conclusion

- **What can be done to fix E-Fraud?**
  - Watch Second Video, need to dig into details
  - There are reasonably easy fixes
  - Problem can be addressed at County, Precinct level.
- **Should the NIC Election be Overturned?**
  - Yes, of course. But . .
  - **Nothing can be done until E-Fraud is addressed.**
- **What other Elections are Suspicious?**
  - Very Difficult Question to Answer
  - **BIG BIG BIG Can of Worms**
