SAP PP (Production Planning) Course Details

☐ Course Title:

SAP PP – Production Planning with S/4HANA

IT & Software Training Options
@ Sap Corporate Academy

Whether you're looking for **IT & Software Computer Training**, start your next journey with

India's Best IT & Software Training Institute @Sap Corporate Academy -- we have a

different training options for you.

☐ Course Overview:

SAP PP (Production Planning) is a module in SAP ERP used to plan and manage manufacturing processes. It is deeply integrated with other SAP modules such as MM (Materials Management), SD (Sales and Distribution), and FICO (Financial Accounting).

This course covers both the theoretical and practical aspects of SAP PP and prepares students to implement and manage production planning in real-world environments.

☐ Course Objectives:

- **Understand the SAP Production Planning lifecycle**
- **Configure master data and planning processes**
- **Perform MRP (Material Requirement Planning)**
- **Handle discrete and repetitive manufacturing**
- **Integrate with MM, SD, and QM modules**
- **Prepare for SAP certification and real-time projects**
