THE ROOF HOUSE (PUNE)

48

The brief was to design a large family house that would offer a peaceful retreat from the chaotic city life. The site is located within a gated residential precinct where it is surrounded very closely by neighbouring houses on three sides. The client had a strong desire & dream to break away from ideological formations & expectations of a house and wanted to express his freedom & modern thoughts, through a design that is impressive & luxurious without losing the warmth and homeliness.
