| <p>It was a hot day. Jude was at the beach when he heard a sad, wailing sound coming from the ocean. It was like nothing he had ever heard before.</p>   |    |
| <p>He scrambled up a hill and looked down. He saw a baby whale stuck on some rocks and was unable to move. It was low tide. Jude knew that this whale was going to be stuck for at least eight more hours until the tide rose later in the day. The baby whale's family was in the distance, watching helplessly. They were calling to it.</p>   | 5  |
| <p>Jude had never encountered a stranded whale before. He tried to keep it cool and wet throughout the day. Jude ran back and forth to fill his bucket with cool sea water to pour over the baby whale's body. Jude was soon exhausted. Jude called his father and told him about the whale. His father soon arrived. Working together, they did their best to keep the whale as cool and as comfortable as possible.</p>  | 10 |
| <p>As the tide rose, Jude and his father climbed up onto the nearby hill and waited. They watched as the water level slowly began to cover its body. Soon it could wriggle its body from left to right. It lifted its tail slightly to check the level of the water. Suddenly, with two giant thrusts, it swam off away from the rocks. A wave of relief washed over Jude and his father as they saw the baby whale's family swimming towards it. Soon, the baby whale was reunited with its family.</p> | 15 |
