- Use a dark blue or black ballpoint pen to write your answers in the space provided for each question.
- 5. Do not use correction fluid / tape.
- 6. Do not use highlighters on any part of your answers.

Name:	()	
Class:	Primary 6	
Date:	26 February 2024	35

This question paper consists of 4 printed pages (including this page).

Each of the underlined words contains either a spelling or grammatical error. Write the correct word in each of the boxes. (10 marks)
Greg was a well-known baker in the neighbourhood. He was <u>conseciencious</u> and
(2)
was always up before dawn to bake the pastries that his bakery was famous in.
(3) The most popular of these <u>be</u> the chocolate bread, "Chocomon". Greg claimed
(4) that a special <u>vaacqum</u> -sealing process helped to keep the dough fresh. On his
(5) (6) kallaander, he marked out every <u>tweelveeth</u> of the month as the oven specialist
(7) would come over to perform <u>manteenaance</u> on his ovens. Since the ovens would not
(8) be at peak <u>efficient</u> , he would close the bakery that day and take a day off.
(9) However, one rainy December morning, the bakery was struck through an
unexpected power outage. Greg was unable to use the ovens for several days, so
(10) he decided to take a short beach holiday. Apart from <u>relaxed</u> by the beach with
a book, he also tried out activities like hiking and fishing. Feeling rejuvenated,
he returned to his bakery with fresh ideas for his pastries.

Having adequate sleep is important for our well-being. This is true not only for adults but		
for children. Rafael Pelayo, a famous sleep expert, says that a lack of sleep can		
lead to a range of, such as difficulty focusing on tasks, poor mental well-being (12)		
and lower immunity, where one becomes more to illnesses.		
Pelayo explains, "Sleep is as about rest as it is about development." (14)		
During sleep, crucial brain development, especially during childhood and		
adolescence it is a young child or a teenager, sleep makes the brain function better (16)		
and make learning new knowledge and skills easier.		
Sleep and mental health are also to be closely linked. On one (17)		
(18), insufficient sleep can affect mental health. On the other, if one has a mental		
health issue, it usually shows up as a sleep-related symptom one's sleep is (19)		
affected. For instance, a poor sleep pattern is often a sign a condition like (20)		
depression. Tackling sleep issues is then an important step to mental well-being.		
Unfortunately, many children do not receive an amount of sleep.		
Increased access to devices can mean that children stay up than they should.		
This is certainly worsened if they have excessive homework to before they can go (24)		
to bed. As a start, Pelayo suggests that parents model sleep habits and establish (25)		
regular study and bedtime routines. It is important to prioritise children's sleep to support their overall		
well-being. Adapted from Greater Good Magazine Score:		

For each of the questions 26 to 30, rewrite the given sentence(s) using the word(s) provided. Your answer must be in **one** sentence. The meaning of your sentence must be the same as the meaning of the given sentence(s). (10 marks)
