WHO ARE WE?

EAGLE PROTECT is a leading private security and protection company with global expertise, committed to delivering safety, reliability, and unmatched professionalism.

24/7 Operational Excellence: Our team is available around the clock, offering rapid response services supported by advanced technology and trained professionals.

Advanced Technology Integration: We utilize body cameras, drones, and modern supervision systems to enhance monitoring, ensure accountability, and provide reliable evidence when required.

Commitment to Trust and Safety: We focus on building lasting relationships by delivering transparent, effective, and client-focused security solutions that prioritize safety and peace of mind.

OUR SERVICES

01

We offer our clients various types of subscription packages ranging from basic to premium, as well as additional options such as SOS buttons, advanced supervision equipment, and online support applications.

02

All packages ensure a 24/7 hotline in both Indonesian and English, along with guaranteed response times.

03

24/7 technicians are available for supervision equipment maintenance.

04

We coordinate with authorities and emergency responders in emergency situations.

05

Additional services available include security officers, translation, legal assistance, ambulance services, first aid, and other services that work in cooperation with the authorities.

OPERATIONAL STRUCTURE AND RESPONSIBILITIES

Comprehensive Training for Eagle Protect Members:

All packages ensure a 24/7 hotline in both Indonesian and English, along with guaranteed response times.

Advanced Monitoring and Accountability:

Utilizing cutting-edge technologies, including body cameras and drones, we record all operational activities. This practice guarantees transparency, accountability, and the safety of our units and client

24/7 Bilingual Emergency Hotline:

operate a central office equipped with a control center and a continuously active hotline, providing emergency response services in both Indonesian and English. This ensures immediate assistance and effective communication during critical situations.

Centralized Command and Coordination:

All operational zones are supervised by a central command team responsible for approving and coordinating activities. This centralized oversight ensures that every action aligns with our stringent standards and procedures, with meticulous documentation at every level.

TRANSPARENCY

Full Transparency with Authorities:

Once operational, EAGLE PROTECT ensures full transparency with all relevant authorities, maintaining open communication, accountability, and compliance with regulatory standards.

Commitment to Recorded Safety Measures:

EAGLE PROTECT employs advanced technology, including body cameras and drones, to record all movements and operations. This ensures the safety of our units, provides clear evidence of professionalism, and builds trust with our clients.

Part of a Well-Known Conglomerate:

Transparency remains a cornerstone of EAGLE PROTECT. As we expand, we strive to uphold the standards of a long established and respected conglomerate across the country.

Building a Reliable and Respected Presence:

Through transparent practices and the use of cutting-edge technology, EAGLE PROTECT fosters a safe, incident-free, and happy community. Our commitment to reliability ensures we are trusted and respected in the security industry.

SERVICE WARRANTY AND STANDARDS

Eagle Protect is committed to delivering services that adhere to the highest market standards and fulfilling all promises made to our clients. We ensure exceptional reliability and accountability in every operation.

If we fail to meet the promised level of service or fulfill our committed security responsibilities, clients are entitled to a full refund without penalties. This reflects our dedication to transparency and client trust.

We uphold rigorous protocols and use advanced technologies to consistently deliver reliable and professional security solutions, ensuring peace of mind for all our clients.

False Alert Policy: To safeguard operational efficiency and public safety, severe penalties, including potential service suspension and legal actions, will be enforced for false alerts. Misuse of emergency services disrupts operations, diverts resources, and creates unnecessary risks. Clients are urged to use emergency services responsibly.

COVERAGE AREA OF OPERATIONS

Strategic Zones:

Our service areas are divided into zones for optimal coverage, ensuring fast response times for our clients.

Efficient Routes:

Control routes are designed to avoid delays from traffic and one-way streets, ensuring smooth operations.

Quick Response:

With effective planning and advanced organization, we guarantee exceptional response times and reliable service.

ZONE 1 : BERAWA

ZONE 2 : CANGGU

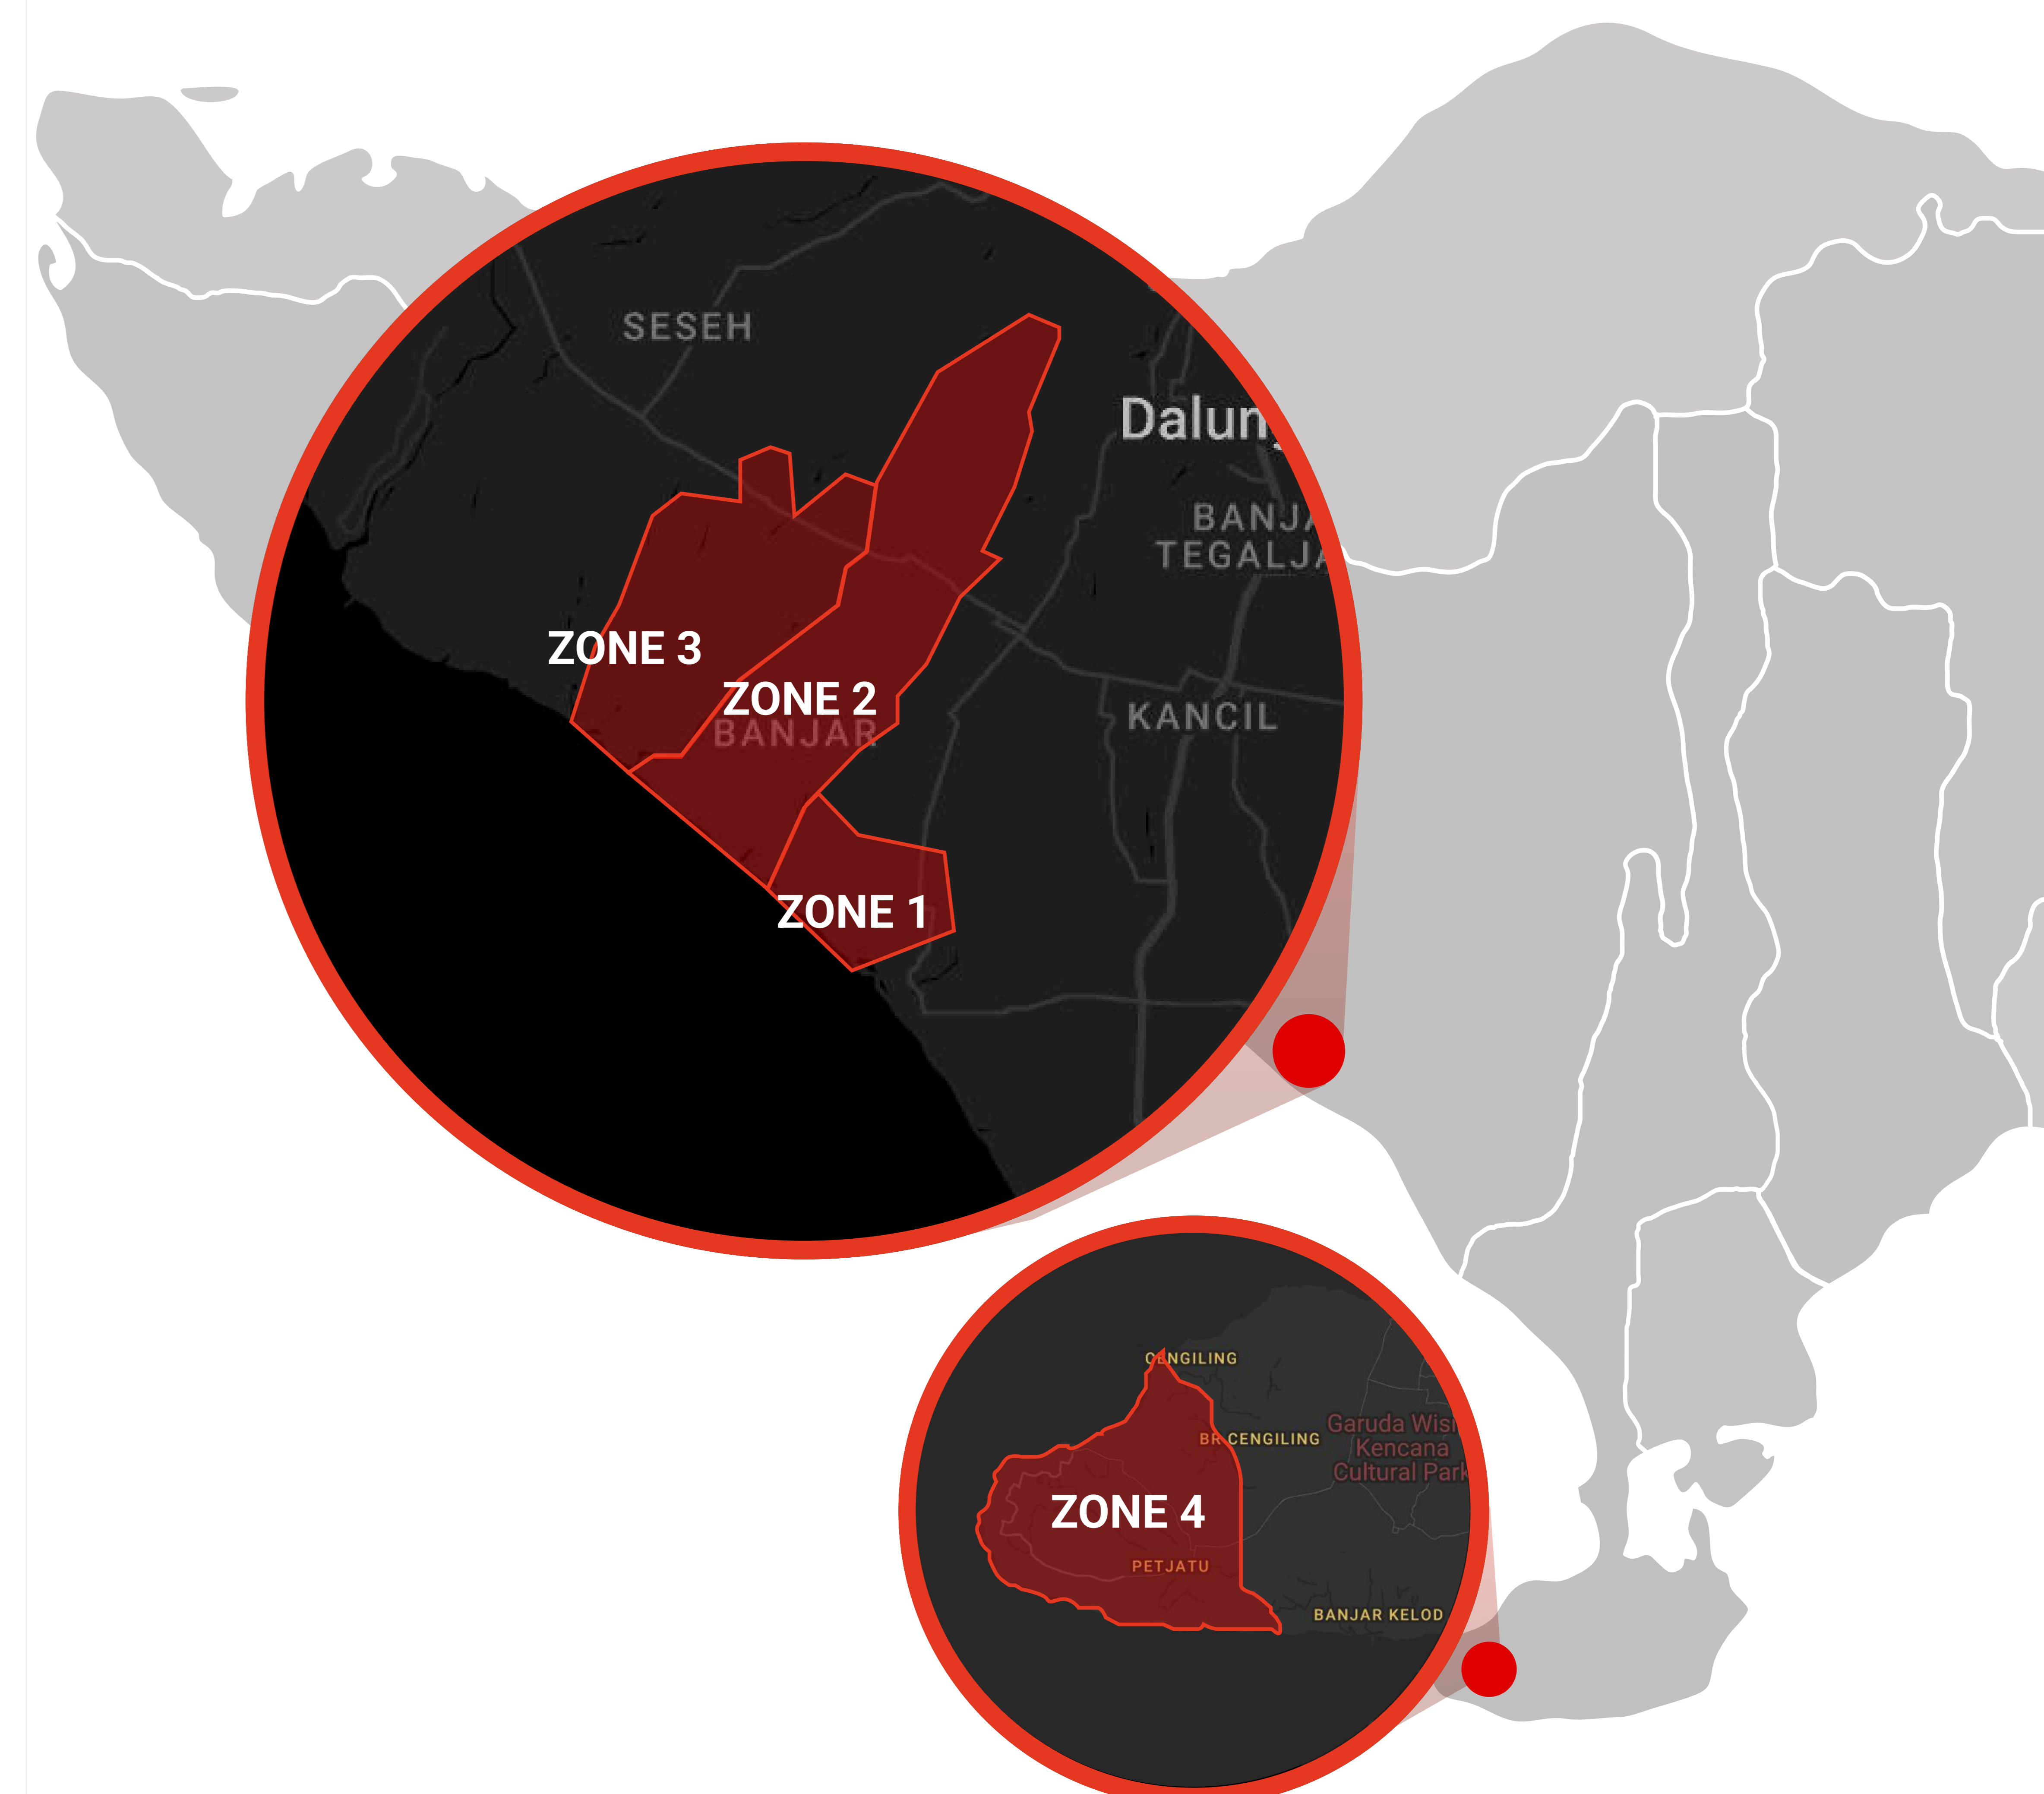

ZONE 3 : PERERENAN

ZONE 4 : PECATU

Additional zones will be introduced based on demand, with priority given to the areas most requested on our waiting list

Enjoy reliable assistance within 12 minutes.

TRAINING AND EDUCATION

Communication Course:

Eagle Protect personnel receive specialized communication training, focusing on English proficiency and authority procedures to handle diverse client needs and escalate issues appropriately.

Driving Course:

Advanced driving training ensures safety and efficiency during emergency operations, equipping our team with skills modeled on law enforcement standards.

Krav Maga Training:

Certified instructors provide self- defense and conflict management training, focusing on peaceful resolution and safe containment methods.

First Aid Courses:

Comprehensive first aid training, certified by recognized medical institutions, prepares our personnel for swift and professional emergency response.

TRAINING AND EDUCATION

Reptile Rescue:

Our team is trained in professional handling of reptiles and wildlife to ensure safety in residential and commercial areas.

Fire Emergency Training:

In-depth fire safety courses focus on prevention, first response, and containment, certified by fire safety authorities.

Certified Drone Pilots:

Our personnel are trained and certified to operate drones for surveillance and rapid situational assessments, ensuring advanced technological support during operations.

Team Recognition:

Staff wear identifiable markers indicating their expertise (e.g., First Aid Specialist, Fire Specialist, Drone Pilot), assuring clients of their specific skills and professionalism.

TECHNOLOGY AND EQUIPMENT

Smart Vehicles:

Equipped with first aid kits, emergency tools, and GPS for rapid and precise responses.

Advanced Communication:

Using the latest POC technology, we ensure seamless, encrypted communication with real-time GPS tracking for reliable coordination.

Security Monitoring:

High-definition body cameras are always recording, with encrypted backups stored for up to 48 hours post-service, ensuring accountability and transparency.

Cutting-Edge Drones:

Equipped with the newest technology, including facial recognition, tactical capabilities, and night vision, our drones provide advanced situational awareness and operational efficiency.

Self-Defense Tools:

Officers are equipped with professional grade tools such as handcuffs, police batons, and pepper spray, ensuring safety and effective security actions.

MEDICAL EMERGENCIES

Partnership with Trusted Hospitals:

We collaborate with the most advanced and trusted hospitals in our areas of coverage to ensure reliable and professional medical assistance.

First Aid Training and Certification:

All our personnel receive first aid training and certification from SILOAM HOSPITALS, ensuring they are equipped to effectively handle medical emergencies.

Medical Equipment:

Our units are equipped with essential first aid tools, including defibrillators and other advanced medical equipment, to provide immediate support until professional medical services arrive.

Seamless Medical Assistance:

Clients benefit from direct coordination with insurance providers, minimizing wait times and ensuring quick treatment upon hospital arrival.

First Aid Motorcycle Units:

Our motorcycle units, staffed by trained medical personnel, provide rapid first aid and support at the scene until an ambulance arrives.

Comprehensive Asset and Personal Protection Services

At EAGLE PROTECT, we specialize in providing security solutions that adapt to the unique needs of individuals and organizations. Whether safeguarding private residences, commercial buildings, or high-profile individuals, our team ensures safety and peace of mind through:

On-Site Security (Stand-By Guards): Guards trained to protect properties, assets, and sensitive areas.

Private Bodyguard Services: Exclusive security personnel offering tailored protection for individuals and families.

Event Security Specialists: Detailed planning and execution to ensure safe and successful events.

Bespoke Security Projects: Unique solutions designed to address specialized security challenges.
