

MODERN STEEL FABRICATORS

Engineers & Contractors

Company Profile

COMPANY PROFILE

INTRODUCTION

Established in 1982 as a sole proprietorship firm by Mr. Naazar ali, **Modern Steel fabricators** is one of the leading service providers in the domain. Situated in Delhi, the company provides an exclusive range of services named as **structural fabricators/erectors, PEB/modern roofing, and pipelines; and also manufactures conveyor/ducting steel products.** Working dedicatedly for so many years, we have gained huge experience in the field and so far have met our clients' expectations expertly. While providing our services and manufactured products, we make sure our workforce functions in compliance to details specified by our customers to meet their expectations accurately. With the expertise gained in the domain, we have stretched our operations throughout India and abroad.

The various services as well as the manufacturing process at **Modern Fabricators** are effectively backed by fantastic and latest technology and equipments complying with international standards. While carrying out our services, we keep a thorough check at every stage to ensure we deliver top grade, durable, and reliable output. We complete the projects in such a manner so that you do not require much maintenance later on even in uncongenial atmosphere which makes our services even economic and reasonable. Our offered services so far have been immensely appreciated by our clients for their long-lastingness, and since establishment we have undertaken several projects all across India from different companies.

Complete Customer Satisfaction:

We pride ourselves as leading service providers providing several industries with their requisite services/products by imparting structural fabrication/erection, pipelines, and PEB/modern roofing services; and different type of steel and conveyor/ducting products. With our state-of-the-art equipments and technology we have delivered supreme quality services and steel and conveyor products to our clients and have consistently been able to derive their complete satisfaction.

With our incomparable experience in structural fabrication/erection, pipeline fitting, roofing, and ducting services, we have been capably serving our customers and achieving their confidence in our company. We are backed by a team of well trained professionals which strictly complies to the prescribed working standards. As we are committed to deliver quality performance, and gain customers' satisfaction, you can rely upon our services while opting for us.

OFFICE 26-E WHITE HOUSE BUILDING KHIZRABAD OKHLA NEW DELHI-110025 (INDIA)***Contemporary Infrastructure:***

For meeting the ever-growing demands of clients, we have set up a well-organized and sophisticated infrastructure. Having a team of dedicated professionals and experts, we have successfully fulfilled the requisites of our clientele with our imparted services and products. With our advanced infrastructure and committed team of well-trained professionals, we successfully cater to the needs of our clientele.

With the most advanced fabrication, fitting, roofing, and other machines/equipments and updated testing amenities, along with highly qualified personnel, we have gained an enviable position in market. Since establishment, we have grown tremendously to provide our services in PEB/modern roofing, structural fabrication/erection, and Pipeline, along with producing excellent conveyor/ducting and steel products to meet the high standards of quality and customer satisfaction. The company has swiftly enhanced on technology and facilities to provide excellent roofing, fabrication, and fitting solutions, and manufacture top grade products

Modern steel fabricators maintains a fully automated structural and miscellaneous steel fabrication facility with a 400 ton per month output capacity.

Our Services:***Structural Fabricators/Erectors***

*We work to provide our excellent services as excellent **structural fabricators/erectors** to our esteemed clientele. Being reliable **structural fabricators/erectors** providing our services with accuracy and preciseness, we have gained unbeatable reputation in the domain. Carrying out the fabrication and erection tasks for huge and small structures, bridges, stairways, platforms, and different assemblies, we have maintained excellent quality and 100% customer satisfaction in our work. With our experienced and skilled team, Devaraja Structural Fabrications operates perfectly in high-risk environments like tight spaces, high elevation, ongoing plant operations, etc. We provide our **structural fabrication/erection** service at very competitive prices.*

PEB/Modern Roofing

*Pre-engineered buildings are contemporary steel solution for developing an effective and economic infrastructure. These offer excellent design flexibility and require short construction time. We as service providers impart you with perfect **roofing solutions** for such type of buildings. Not just for **PEB** but we also impart different modern roofing solutions for our different clients. With our years long experience we have provided superior roofing solutions to our clientele stringently according to their tastes, specifications, and*

OFFICE 26-E WHITE HOUSE BUILDING KHIZRABAD OKHLA NEW DELHI-110025 (INDIA)

*requirements. We provide superior **roofing services** that would enhance your building's aesthetic appeal and are extremely cost-effective.*

Pipelines

*We also provide services for **Pipeline** job works and carry out the assigned jobs with accuracy and efficiency. Our team of skilled personnel operates laying complete attention over the details and complies strictly with the instructions and specifications of the clients. We have gained appreciation for our performed pipeline jobs due to the superior quality and durable job output. Strict check is kept over all measurements, required elements, and necessary manpower so as to provide excellent results and assure timely project completion. You can rely on us for your relevant jobs and be sure that your requisites would be met with perfection.*

Conveyor/Ducting

***Conveyor and ducting products** are used in Thermal stations, Cement Plant, and Sugar Plant. We manufacture superior quality **conveyor and ducting products** that function efficiently and give long-lasting performance for the end-users. We manufacture them using superior grade raw material and strictly in accordance to our customers' requirements. With contemporary manufacturing unit, latest technology and equipments, along with skilled workforce, we have been producing supreme quality **conveyor/ducting products** for our clientele. So far our customers have relied upon us for their **ducting and conveyor** related requisites and we have perfectly met their expectations.*
