Category	CAT 1
Packaging	20 kg polypropylene or kraft paper bags
Appearance	Fine powder of a light yellow color.

Subject to availability

A close-up photograph of a pair of hands cupped together, holding several pieces of turmeric root. The roots are knobby and have a light brown, textured skin. Two of the pieces are cut lengthwise, revealing a vibrant, bright yellow-orange interior. The hands are positioned against a solid black background, which makes the turmeric and the skin tones stand out. The lighting is soft, highlighting the texture of the roots and the skin of the hands.

Key Features	Tropical fruit with attractive varieties, sweet and refreshing

[illegible]

Fresh Grana

A close-up photograph of a person's hand holding a single, ripe passion fruit. The hand is positioned at the top, with the thumb and index finger gripping the green stem of the fruit. The passion fruit is round and has a bright orange-yellow skin with a bumpy texture and some small brown spots. The background is a solid, deep black, which makes the fruit and the hand stand out. The lighting is soft, highlighting the contours of the hand and the texture of the fruit's skin.[illegible][illegible]

A close-up photograph of a person's hand holding several ripe cherry tomatoes. The tomatoes are a vibrant orange-yellow color, indicating they are ripe. Some of the tomatoes are still partially covered by their dried, papery husks, which are a light tan or yellowish-brown color. The hand is positioned with the palm facing upwards, and the fingers are gently cupping the tomatoes. The background is a solid, deep black, which makes the colors of the tomatoes and the skin of the hand stand out. The lighting is soft, highlighting the texture of the tomatoes' skin and the delicate structure of the husks.

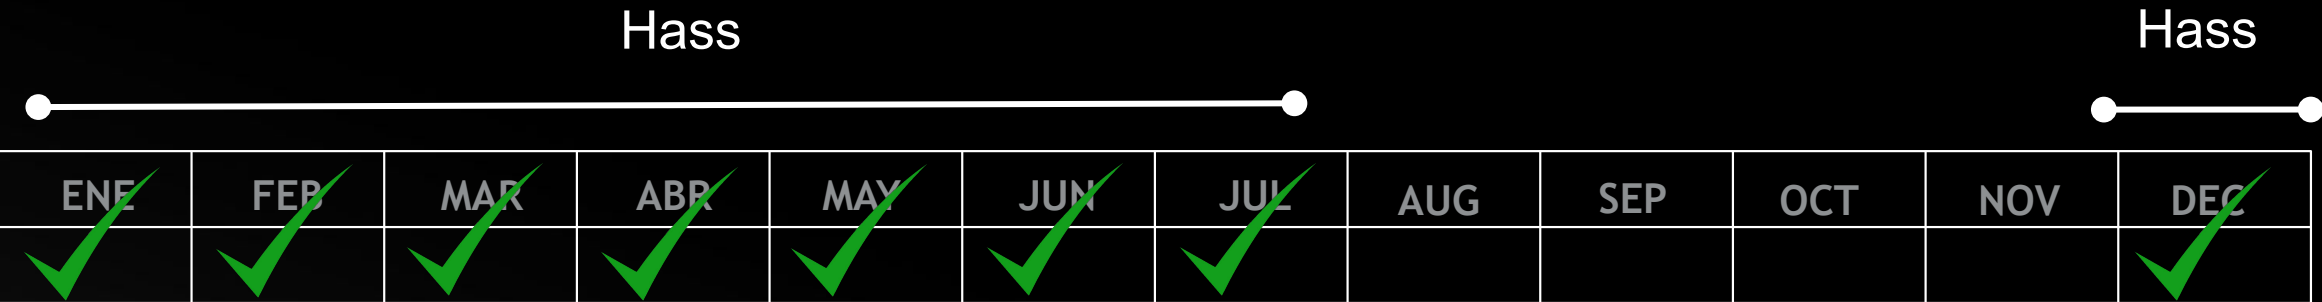

Scientific Name	Physalis Peruviana
Customs Code	0810.90.50.00
Presentation	Fresh fruit
Unit of Measure	Kilograms
Category	Export Quality
Available Sizes	N/A
Packaging	As per customer requirements
