**WORKSHOP: CRIME SCENE PROTOCOL, CASE WORK AND
REPORTING**

18th-22nd August 2025, Lisbon, Portugal

Aim

Workshop 1, *Crime scene protocol, case work, and reporting*

The aim of this workshop is to provide the ESRs training and education regarding the principles of the crime scene investigation. The workshop begins with a visit to a Forensic Science Laboratory of a Criminal Investigation Police with special focus in the Crime Scene Examination Unit to get knowledge of the routine case work. At the Police Academy the ESRs will receive training regarding the developments of the forensic sciences from the XIX Century until our days and regarding the main principles of the crime scene investigation. Also will be detailed the principal steps of a crime scene examination, include the technical and scientific interpretation of the traces, the forensic sampling at the scene and the problematic of the contaminations. Other important issues in the field of the crime scene investigation that will be addressed will be the documentation of the scene and the chain of custody. Last but not the list also explanations regarding the quality assurance principles in the field of Crime Scene Investigation and training related for the elaboration of CSI Reports. The last full day will be dedicated to practical exercises and presentation of the respective CSI Reports.

At the end of the workshop will be organize a final discussion. This discussion will be based on the work done with the explanation of the possible doubts and definition of future actions.
