(254) 290-1220-M  
(850) 218-1991-K

Greetings,

Ascendant Safety Services was established in 2024 to assist Contractors in meeting their Site-Specific Safety Plan (SSSP) requirements. Whether you are a General Contractor or a tier Sub-Contractor, we can help.

Ascendant Safety Services personnel have 20+ years of combined experience in Site-Specific Safety Plan development and writing. We hold Competent Person Training Certificates in Hazard Energy Control, Fall Protection, Confined Space, Scaffolding, Trenching & Excavation, and Mobile Elevated Work Platforms.

Ascendant Safety Services develops and writes Site-Specific Safety Plans (SSSP) and the related Activity Hazard Analysis (AHA) plans. Not all projects require an SSSP, however the majority require an AHA, we can help.

If you are interested in knowing more about us, explore our website for more detailed information and pricing. Or maybe you know a contractor struggling to meet their SSSP requirements; we would appreciate your referral.

Thank-You for Your Time and Consideration,

MaKayla Barbee, Ptnr/Plan Development

Kevin Hopkins, Ptnr/Plan Development
