Quality is our guiding principle. From the beginning, the easy way was never an option. We choose excellence and durability.

Our furniture is not just pieces, it is important characters in the stories that our consumers build in their homes. These are not just products, but business tools for our resellers, which strengthen their brands and generate trust with their customers. They are part of the structure on which our resellers build their success stories.

**Cozimax** is the choice of those who value not only the quality of products, but also the quality of business partnerships. It is the choice of those who want to write success stories together with us.

We believe that success is not just measured in numbers, but in the experiences shared and the lives we impact. Our commitment goes beyond providing exceptional products; but also build a solid network of relationships and mutual support. Each employee, supplier and customer is part of a collective journey, where respect, trust and transparency are the basis.

Stories  
OF QUALITY.

## WHY IS OUR PRODUCT DIFFERENT

You've probably heard of our electrogalvanized steel. We know it sounds complicated, but let's keep it simple:

Have you noticed that several products in our daily lives, such as refrigerators and automobiles, are extremely durable and resistant, even when exposed to harsher conditions of use? Well, they are all made with electrogalvanized steel, which basically means that the steel sheets are coated with a layer of zinc crystals, increasing resistance to rust over time.

We guarantee the best quality, exclusively, by opting for electrogalvanized, combined with the phosphating and electrostatic painting stages, ensuring uniformity, protection and durability, that is, furniture like new for much longer!

## DID YOU KNOW?

But after all, what really is MDF, MDP, and what is the difference between them?

MDF and MDP are popular types of wood, normally used in the manufacture of furniture, but with different characteristics:

|                                               | MDF | MDP |
|-----------------------------------------------|-----|-----|
| GREATER RESISTANCE TO MOISTURE                |     | ✓   |
| GREATER STRUCTURAL STRENGTH                   |     | ✓   |
| GREATER RESISTANCE TO WARPING                 |     | ✓   |
| GREATER HOMOGENEITY (IDEAL FOR MACHINING)     | ✓   |     |
| IDEAL SURFACE FOR SPECIAL PAINTS AND COATINGS | ✓   |     |

### CONCLUSION

The ideal is to combine the 2 materials, as each one plays its role so that, in the end, it is possible to have a great piece of furniture, with quality and resistance.

# SOCIAL RESPONSABILITY

Guided by our purpose of focusing on people, far beyond our employees and partners, we support institutions that value life, health, human dignity and contribute to a better society.

## EDUCATION, SPORT & CITIZENSHIP.

Being a citizen means, in addition to knowing our rights, it also means taking action. It is believing that together we can build places where there are principles and values that unite the entire community.

Therefore, we created the **Cozimax** Institute with the mission of promoting actions, events and projects for different age groups based on three pillars: **education, sport** and **citizenship**.

Through it, we were able to formalize partnerships with government bodies, achieving much more for the community, as well as federating our athletes, providing greater support in their careers.

And since moving forward is part of our DNA, in 2024 a Brazilian sports legend joined the Institute: **Jadel Gregório** is his name!

Yes, one of the biggest names in the history of athletics is now team **Cozimax**! Olympic athlete, holder of the South American record in the triple jump and runner-up in the world, Jadel arrived bringing not only his passion for the sport, but also his desire to share his achievements and inspire hundreds of children, young people and adults through classes, meetings and events offered by the **Cozimax Institute** for the entire community.

# FOCUS ON PEOPLE TO STRENGTHEN PEOPLE

BUILDING *Stories*  
OF QUALITY.

It is impossible to talk about **Cozimax** without mentioning management based on people's well-being and quality of life. Human development through professional and personal improvement is one of our main values, which moves us daily to recognize and encourage the practice of various activities, whether physical, intellectual or social.

Thus, our daily lives rely on differentiated care, from environments prepared for leisure and rest, to sporting activities assisted by professionals, encouragement to study, qualification, and various courses and training through our **Cozimax Corporate University**.

We are 650 employees. We are more than 100 consultants throughout Brazil, and we are in more than 20 countries around the world.

Valuing the work and dedication of each person who contributed, and continues to contribute, to building this story so far, is fundamental to achieving results. But our search for excellence in service, the quality of our products and innovation is continuous and infinite.

And everything to bring our best to you, our client and partner, guaranteeing your profitability, your safety, and especially your **trust**.
