# WELCOME FRIEND

Hey there! My name is Karleen Pagan, and I'm the creator of How to Make Money with Mavely App. As a mom and entrepreneur, I know how important it is to find real side hustles that actually work — ones that don't require huge investments, complicated tech skills, or waiting months to see results.

That's why I started this project: to show everyday people how to earn extra income using the Mavely App, an amazing affiliate marketing platform that lets you share products, deals, and your own curated shop — and get paid every two weeks.

The purpose of this PDF is simple: to give you a step-by-step roadmap you can follow in just one day to start earning. No fluff, no confusion — just the 5 exact steps that will get you moving fast.

By the time you finish this guide, you'll have your account ready, your shop set up, and your first links shared. In other words, you'll be officially on your way to your first online earnings with Mavely. Let's dive in!

HOW TO MAKE MONEY WITH MAVELY APP

# READY TO TAKE ACTION?

Are you ready to make your first commission online — starting today?

With Mavely, you don't need a website, huge social media following, or months of waiting to see results. This guide will show you exactly what to do in the next 24 hours to start your first earnings.

# STEP 1:

## Create Your Free Mavely Account (10 minutes)

First things first, you need to get your account ready! Mavely is super user-friendly and doesn't require a high follower count to join. That's one of the best parts!

### Action:

1. Sign up for a free Mavely account. Go to:  
<https://app.mave.ly/IHSCCXgN2Vb>

2. Complete your profile. Add your social media channels where you plan to share links. This helps Mavely understand your audience and content style. Also, add payment details so you can get paid bi-weekly.

✨ Pro tip: Use your real name and photo — it builds trust if you share your shop later.

3. Explore the app. Get a feel for the dashboard. You'll see your earnings, clicks, and a list of all the incredible brands you can work with.

That's it! No lengthy applications or waiting for approval. You're in!

# STEP 2:

## Set Up Your MyShop & Pick Your First Products (15–20 minutes)

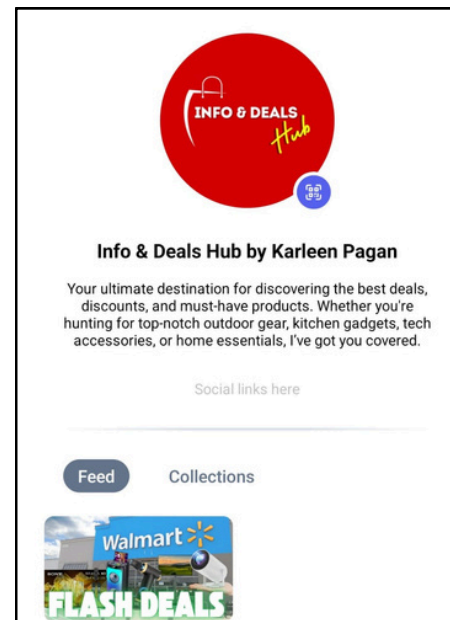

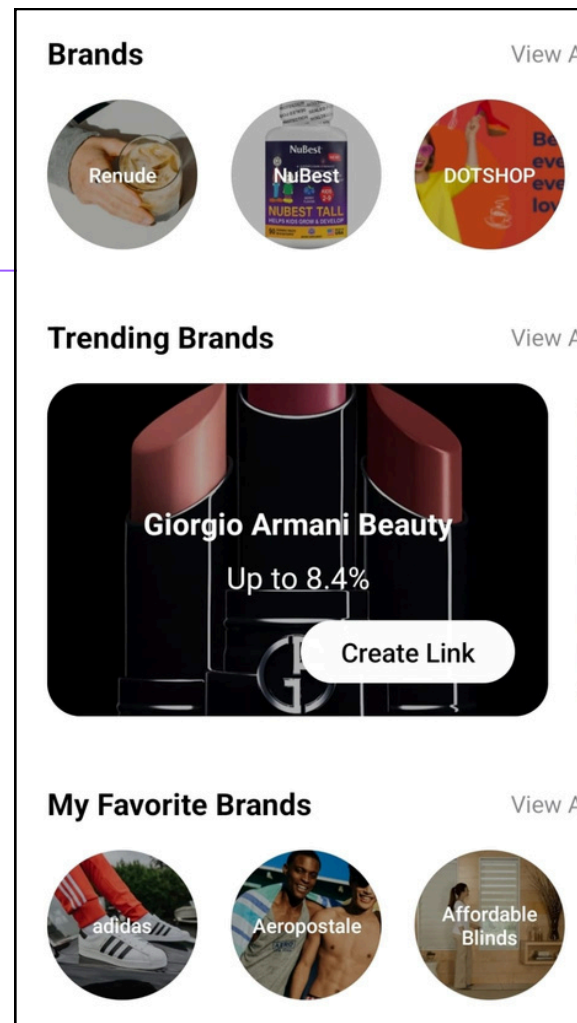

Now for the fun part! Mavely gives you a personal online storefront — called MyShop — where you can showcase products from hundreds of top brands like Target, Walmart, Macy's, Nike, Sephora, and more. Think of it as your curated boutique, filled with items you already love and recommend.

The key to success here is authenticity. People trust your recommendations, so choose products that genuinely fit your lifestyle and interests.

### Action:

1. Pick your niche or theme. Are you into fashion, wellness, home, beauty, or parenting? Choose a focus that feels natural to you.
2. Browse the brand list. Explore Mavely's partnered stores and see what catches your eye.
3. Choose 3–5 products to start with. Don't overthink it — pick things you already use or love (that new coffee machine you rave about, those sneakers you wear every day, or skincare you swear by).
4. Fill out your shop. Add at least 10–15 products to make it look complete, and update your banner + bio so your shop feels inviting and personal.

✨Pro tip: People buy from people, not random links. Treat your MyShop like your boutique — show your style, your taste, and your personality.

# STEP 3:

## Create Your Mavely SmartLink (Takes 5 minutes)

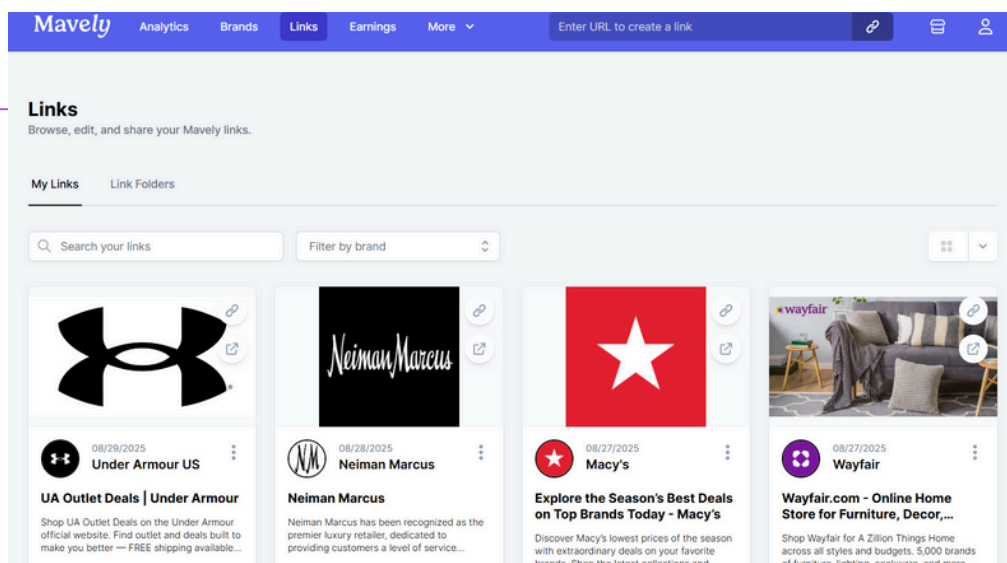

Once your shop is set up and you've chosen your first products, it's time to generate your special affiliate links. Mavely calls these "SmartLinks" because they're designed to help you earn more with less effort.

### Action:

1. Search for your chosen product or brand inside the Mavely app or on their desktop site.
2. Click to generate your unique link. Mavely makes this super simple with a one-click process. If you're on desktop, you can even use their browser extension to make a link directly from a brand's website.
3. Copy the link! It's now ready to be shared with the world. it's your "money link."

These links track every click and sale, so you'll know exactly how your content is performing and get credit for every purchase.

🌟 Pro tip: On desktop, use Mavely's browser extension to make SmartLinks directly from a brand's website.

# STEP 4:

## Share Your First Product Naturally (15–30 minutes)

Now it's time to take action! You don't need to post 50 links at once — just start with one product or deal and share it where it feels most natural. The goal is to make your recommendation feel like something you'd normally share, not a sales pitch.

### Action:

1. Post your link in a way that fits your style:

- Instagram Story with a quick caption
- TikTok short video
- Facebook group post
- WhatsApp or text message to a friend who'd love the deal

2. Add a call-to-action (CTA): "Shop this deal here" or "Grab it before it's gone!"

3. Be transparent — add a small "#ad" or "affiliate link" for trust and compliance.

4. Start with your warm network. Share your shop or product link directly with 5–10 people you know.

- Example:

*"Hey! I just started a side hustle with Mavely. It lets me share exclusive deals and earn when people shop. I thought of you because [insert reason]. Here's my link — check it out!"*

### ✨ Pro tips:

- Urgency sells — use phrases like "Flash Sale" or "Limited-Time Deal."
- Personalization makes people click — mention why you thought of them.
- Authenticity wins — the more natural your share feels, the better your results.

# STEP 5:

## Track, Test & Keep the Momentum Going (Ongoing, 30–60 minutes a day)

This is where it gets exciting — your links are out there, and now you can start watching the results roll in. Mavely makes it easy to see what's working so you can keep improving and growing.

### Action:

1. Log into your Mavely dashboard daily to check your clicks and commissions.
2. See which products and posts are getting the most attention.
3. Use that info to guide your next share — double down on what works best.
4. Keep sharing at least one new product daily across platforms like Instagram, TikTok, Pinterest, and Facebook.

### ✨ Pro tips:

- Don't overthink it — consistency beats perfection.
- Remember, people often need to see your link multiple times before clicking. Stay visible!
- Celebrate every win — whether it's your first click, first sale, or first payout. These are signs your momentum is building.

💡 The best part? Mavely pays out every 2 weeks and even offers bonuses — so your small daily actions can quickly turn into steady income.
