IMPORTANT

This installation, or part of it, is protected by a device which automatically switches off the supply if an earth fault develops. Test six-monthly by pressing the button marked 'T' or 'Test'. The device should switch off the supply and should then be switched on to restore the supply. If the device does not switch off the supply when the button is pressed, seek expert advice.

IMPORTANT

This installation should be periodically inspected and tested and a report on its condition obtained, as prescribed in the IET Wiring Regulations BS 7671 Requirements for Electrical Installations.

Date of last inspection

Recommended date of next inspection

A wide range of electrical labels including;

Test labels – Periodic Inspection & RCD & Pass / Fail

Danger Labels – 110,230,400,440 Volts & High Voltage

Solar Labels – Dual Supply Notice & PV Array & Solar PV on Roof & Multiple Supply

And More...

Custom Labels

Need a custom Label created?

Send dimensions, material and design features and we will be happy to make the perfect label for you.
