Noise Complaints for two days, Oct. 20 but mostly Oct. 21. In the afternoon from my house starting about 4:00 pm to 5:00 pm there was like a constant buzz because of one aircraft behind another leaving the airport. Some, but not many, did not fly over Tomoka Estates homes we could still here them. It was like someone parking a lawn mower outside the window by where I am sitting and letting it run. While watching tv after dinner my wife would say, "here comes another one". Almost all were Phoenix East with Embry Riddle chipping in.

Some are still doing the turn on the transponder tracker just after they pass our homes.

Most flights by Phoenix East BPX276 on Oct. 21 at 3:45 pm had made 7 passes in a row.
