Attached is my log of complaints of aircraft flying over Tomoka Estates not following the noise abatement voluntary path.

Life is much better when the flight schools use the north south patterns that includes flying over and near I-95.

Notes: On Nov. 18 at 11:40 am BP:X298, Phoenix East Aviation, the aircraft was very loud when it flew over our house. It had made 8 takeoffs going to the east following the noise abatement path and then changed the path.

Nov. 20, at 4:47 pm Phoenix East BPX287 made it's 8<sup>th</sup> pass over Tomoka Estates. See image below.

Nov. 21, at 3:00 pm I had to put my headphones on so I could listen to television because of the frequency of flights.

Nov. 21 from 8:25 PM to 8:52 pm **ERU491** made 4 loud passes over our house while we were trying to watch television with the windows open and had to pause the show.
